

## Welcome to our Schools Catalogue 2013

The name Frank Bros. is synonymous with quality in academic publishing - for eighty years students all across India have used and enjoyed books from Frank Bros. As an educationist, Frank Bros. is treading a new path this year.

Our research and well-informed insights into modern education have helped us understand that although the time to learn is fixed, the quantum of learning is variable. Every year, students get the time-frame of *'one academic year'* to learn as much as they can about a multitude of subjects. The system of *'one academic year'* allows some students to excel with flying colours while others face huge obstacles in terms of knowledge gaps.

Frank Bros. has taken the initiative to improve the system of education by attempting to fill the knowledge gap through **blended learning**. Blended learning is self-paced and self-assessed; it allows students to imbibe the concepts on their own and then use the classroom for interaction.

Our portfolio this year carries the highly appreciated "Joy of Maths" in a new avatar, supported by interactive digital content. The ever popular "Hindi Vyakaran Evam Rachna" and our top of the line General Knowledge series "Get Ready to Know More" and "Endless Worlds", have also been updated. Science has been the forte of Frank Bros. and this year we bring you the digital FB Primary Science with CCE tools and revised FB Secondary Science books.

Looking forward to a fruitful partnership.

Best wishes for the academic year ahead.

*Amitabh Nagpal*

Chairman and Managing Director  
Macmillan Group (India)

FRANK BROTHERS & CO.

## From the desk of Chairman Emeritus

*"The rung of a ladder was never meant to rest upon, but only to hold a man's foot long enough to enable him to put the other somewhat higher"*

Thomas Henry Huxley

Frank Bros. was set up in 1930 by Mr K.L. Govil, with a vision to provide good books and to always keep the customer satisfied. Since then the company has been at the forefront of academic publishing. Today it has a good business footing not only in India, also in UAE, Muscat, Oman, Saudi Arabia, Sri Lanka, and Nepal etc.

Frank Bros. was the first to introduce Modern Mathematics in ICSE, the first to incorporate CCE, the first to create customised books for state boards and more. Frank Bros. has leading educationists to its name – Ms Lorraine Mirza of the highly popular "Joy of Maths", Mr Stalin Malhotra of "Learn n Play Mathematics", Mrs Hilda Peacock, Mr DK Sethi and Mr SN Chibber to name a few.

I am proud to say that Frank Bros. has merged with **Macmillan Worldwide** - one of the best known international publishers operating in 100+ countries. Its publishing endeavours encompass high quality academic books, fiction books and science journals through illustrious imprints like Nature, Palgrave, and Picador. Macmillan is looking at increasing its footprint in India and acquiring Frank Bros. is a part of its strategy. They share our conviction, passion and farsightedness for the betterment of schooling in India.

It is a rare opportunity which is allowing Frank Bros. to become a part of Macmillan Education and take advantage of Macmillan's creativity and research **to offer innovative products to our students, global teaching tools to our teachers, and most importantly enable our partner schools to stay ahead in the competitive educational environment.**

Going forward Frank Bros. and Macmillan Education will continue to provide the best books by the best known authors in a wider portfolio to schools of IB, CBSE, ICSE and state boards' affiliation.

R.C. Govil
