

ADVANCING
LEARNING

**Annual
School Catalogue
2020**

Dear Educators,

The year 2020 will be an exciting time for all of us in the education domain, as we work to realise the government's vision for an integrated K-12 model with outcome-based learner-centric classrooms.

Since its inception in 1930, ***Frank Bros.**, has been known for pioneering innovation in learning. By understanding customers' voiced and latent needs, and providing relevant content and training support, **Frank** has been able to create strong and lasting relationships with them.

In line with the proposed National Education Policy (NEP), that lays emphasis on language acquisition, we are introducing two language series in 2019. **English Rose**, is a language series which includes a wide range of literacy texts to provide rich input for ESL learners. With learner-centred tasks, it blends structural and communicative approaches to maximise engagement in the classroom.

Suryakiran is a well-graded Hindi series for classes 1-8, and has been developed with the infusion of various activities and tasks that focus on Listening, Speaking, Reading and Writing, to improve language skills of young learners.

To make the learning-teaching process further interactive and interesting, each of our offerings is accompanied by a rich suite of digital resources, that are embedded in the textbooks, for easy and effective use in the classroom and at home.

We look forward to partnering with you and offering our unstinting support to make 2020–21 a successful academic year.

Rajesh Pasari
Managing Director

ADVANCING LEARNING

The **Curious Flower** is a metaphor for the way in which learning develops from the seeds of curiosity and imagination, and the role that educators play in spreading that knowledge to learners around the world.

Macmillan Education has been advancing learning for over 175 years. Since the earliest days we have established ourselves as a world leading publisher, building strong partnerships with educators, innovating in pedagogy and digital content, and inspiring learners to achieve more.

In classrooms around the world we know how transformative learning English can be, and we are passionate about providing students and their teachers with everything they need to succeed in education, in the workplace, and in life. We do this by:

- Listening carefully to the needs of teachers and learners, translating this knowledge into insights that shape the future state of education
- Connecting teachers with the latest research, new pedagogies and world-class experts, sharing the best in global education and making it accessible locally
- Developing highly relevant content and resources that make teaching rewarding and learning effective, ensuring measurable successful outcomes
- As education adapts and changes at an ever-increasing pace, we will always be there – empowering the world's teachers to inspire students on their lifelong journeys in education.
- Building lasting relationships with teachers and lecturers, providing guidance, support and inspiration on their professional development journey

Access Digital Learning Resources

EASY-TO-USE APPS for TEACHERS and LEARNERS

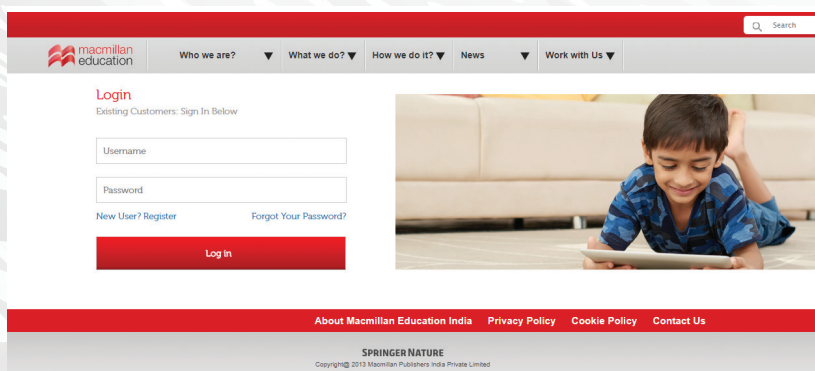

Macmillan Education Everywhere (MEE)

<https://www.macmillaneducationeverywhere.com/>

Macmillan Education Everywhere is a one-stop website for your digital learning content.

Each book is accompanied by a variety of well-researched digital learning resources for learners and teachers to make teaching and learning effective. These can be downloaded from the MEE website.

- ✓ **For both Learners and Teachers:** Along with an integrated **e-book**, a collection of **animations, infographics, interactive activities, listening-speaking activities** and other subject-specific digital learning resources can be accessed using the **token** given on the inside back cover of the Reader.
- ✓ **For Teachers only:** In addition to the above, the digital learning resources exclusively available for teachers comprise **Learn More, Cruise Time, writing tasks, lesson plans, additional grammar teaching material, worksheets** and an easy-to-use **test generator**.

Digital Learning Resources

Animations

animated texts and poems to encourage appreciation of texts

Spell Marks

spelling and punctuation games to improve vocabulary and writing

Write Well

a comprehensive writing tool with formats, samples and graded activities to develop writing skills

Case Study

for contextualised learning

Colouring app

to promote creative skills

My Reading Shelf

interesting stories and activities to promote reading habits

E-book

a one-stop connect to the print and digital resources

Experiments

promotes laboratory skills

English Expressions

flash cards and activities on phrasal verbs, phrases, idioms and proverbs to promote language proficiency

Magnificent Monuments

develop pride in our rich cultural heritage

Map Activity

develops spatial skills

My Earth Songs

a collection of 27 songs based on United Nation's Sustainable Development Goals (SDGs), by Ricky Kej, Grammy® Award Winning Composer and Conservationist

eBytes

an app which lets you select thematic topics and flip through short, crisp and fascinating 'fact bytes'

Projects

foster thinking skills and science process skills

Performance Tasks

hands-on activities to check progress of students

Math+

a maths compendium to stimulate critical thinking, quick computing and problem-solving skills

Learn More

snapshots of book-based concepts with examples

Euclidean

a virtual learning tool, centred around geometry and interlinked with other branches of maths to provide a unique learning experience

Facts through Stories

beautifully illustrated short stories to support learning objectives

Interactive Narratives

discussions on contemporary issues

Worksheets

practice sheets for revision

The Making-of

animated videos to foster creativity and promote lifelong learning

Yearly Academic Calendar

micro lesson plans to aid teaching

Awesome Animals

informative and entertaining videos on animals, that focus on biodiversity

Mind Maps

aid visual learning

Maths Journal

interesting activities to enable students reflect on their learning

Interactive Activities

checkpoints to assess students' learning

Listening and Speaking

interactive activities for the 'Listening' and 'Speaking' exercises

Cruise Time

complete lesson plans on select poems and texts to enhance teaching

Grammar for Reference

extended teaching material for the grammar topics in the Readers

Writing Task

formats, samples and graded exercises to develop writing skills

About the Author

short videos and infographics about famous authors

Primary & Middle

NEW

Joy of Mathematics

Classes 0 to 8

Joy of Mathematics is designed and developed as per the National Curriculum Framework, 2005. The series follows an interdisciplinary approach and provides an exciting and engaging learning platform to students.

- » **Integrated approach** for cross-curricular learning
- » Topics are covered in a graded and concentric manner to build upon previous knowledge
- » **Revision** through well planned exercises
- » **Let's Revise** in Classes 1-5, recapitulates previous knowledge of concepts
- » **Mental Maths capsules** help students to carry out quick calculations
- » **Challenge questions** encourage students to think out-of-the box
- » **Maths Lab Activities** and **Projects** internalise learning through hands-on activities
- » **Fun Maths/Maths Games** reinforces the concepts taught in a fun way
- » **Maths Around Us** helps students apply mathematical concepts in real-life situations
- » **Highlights** provide summary of the lesson for easy recapitulation
- » **Worksheets** to reinforce the concepts learnt
- » **Enrichment Time** provides deeper insights into the concept under study
- » **Practice Papers** aid in comprehensive evaluation.

Frank Primary Maths

Classes 1 to 5

Frank Primary Maths covers the syllabi for schools affiliated to all educational boards.

Aims at developing skills such as analysis, problem-solving, critical thinking, and decision-making

- » **Replay** recapitulates the concepts learnt in the previous class
- » **Link to Life** contains questions that impart values and life skills
- » **Math Lab Ideas, Creative Corner, and Time to Play** build concepts through simple activities and interesting games
- » **Higher Order Thinking Skills (HOTS)** questions enhance problem-solving abilities of students
- » **Math Minute** helps students to recall and practice concepts quickly
- » **Teacher's Tip** includes helpful suggestions for teachers
- » **Enhance** expands the concept under study and deepens its understanding
- » **World and Maths** relates the subject to real-life facts
- » **Revision Capsule** assesses students' grasp of concepts.

Fun with Mental Mathematics

Classes 1 to 8

The series is suitable for schools affiliated to all educational boards.

- » **In Focus** gives an overview of the unit to stimulate interest in students
- » **Let Us Remember** presents the unit's terminology, formulae, and objectives
- » **Riddles** aims to develop problem-solving skills
- » **Do You Know** provides extra insights into the concept covered
- » **Higher Order Thinking Skills (HOTS)** problems allow the students to go beyond the basics
- » **Fun Time** engages the students in the learning process through a range of games, crossword/riddles, and puzzles
- » **Word Problems** offer insights into the different areas where mathematics is applied
- » **Objective Assignment** presents material that serves as a comprehensive evaluation of a unit
- » **Assessments** evaluate the abilities of the students to comprehend the concepts taught.

Teacher's Resource Pack: A range of teacher resources for each class, both print and digital, for effective classroom transaction and additional instructional ideas

Frank Science

Classes 3 to 5

Frank Science is written in accordance with the guidelines of the National curriculum Framework, 2005. The books follow a thematic and multi-disciplinary approach focussing on development of scientific temper.

- » **Connect:** Interesting activities at the start of the lessons to generate curiosity
- » **Science Buzz:** Additional interesting information to make learning enjoyable
- » **Case Study:** An in-depth description or analysis of an individual or a group to stimulate new research/initiative
- » **Eco-Soldier:** To sensitise the students towards environmental issues
- » **Science Speak:** An innovative section to develop observation, communication and critical thinking skills
- » **Sciencetoon:** A novel usage of cartoons to enable students understand not only what they learn but also how this learning is relevant in their lives
- » **Myth or Fact:** Myths explained to promote rational thinking
- » **My Question Time:** A Q&A section to promote questioning and discussion skills among students
- » **Sci-Vocab:** Definitions and meanings of some important terms for easy recapitulation
- » **Activities/ Experiments:** Hands-on activities/tasks from everyday materials to promote science process skills
- » **Projects:** Simple but engaging tasks to promote inquiry and encourage self-directed learning through the use of multiple learning techniques
- » **Check Your Progress/Evaluation/Test Papers:** A wide variety of pen-and-paper and picture-based questions to reinforce learning
- » **Test Papers:** Questions for comprehensive assessment
- » **Challenge Questions:** Higher order questions to hone problem-solving, critical-thinking and analytical abilities
- » **Recap:** A summary of the lesson in the form of a mind map to build connections
- » **Integrate:** Tasks to make meaningful linkages within and across various subject areas
- » **Life Skills:** Questions and activities to develop various life skills.

Frank Experience Science

Classes 1 to 8

Science is an inspiring process of discovery that helps satisfy the natural curiosity with which we are all born and hence the series-**Experience Science**. The series comprises course-books, teachers' resources and digital resources. The series conforms fully to the National Curriculum Framework 2005 Guidelines.

- » A precise explanation of scientific concepts in simple and lucid language, supported by tables, illustrations and photographs
- » **It's Interesting!:** Fascinating snippets for extended learning
- » **Get it Right!:** Addressing misconceptions for effective assimilation of knowledge
- » **Activity/On Our Own:** Enquiry-based activities and experiments to develop scientific literacy
- » **Great Scientists:** Insights into the achievements of famous scientists to generate curiosity
- » **Higher Order Thinking Skills Questions–** to foster critical-thinking and problem-solving skills
- » **Values and Life Skills:** Tasks and activities to inculcate values and life skills
- » **Checkpoint/Exercises/Worksheets/Test Papers–** questions to assess the progress and depth of learning
- » **Integration:** Interdisciplinary projects and research work.
- » **Eco-warrior:** Case studies about individuals and organisations and linked to the Sustainable Development Goals (SDGs) of the UN to help develop insights into issues around the world and take collaborative action
- » **Question Bank:** A repository of questions to practice for competitive examinations
- » **Healthy Me!:** A two-page spread from Food Safety and Standards Authority of India (FSSAI) manual to act as a guide and inculcate wholesome food habits for better health
- » **My Earth Songs:** Booklets with lyrics of SDG-linked songs composed by Grammy Award winning Composer and Conversation, Ricky Kej
- » **Teacher's Manual** with lesson plans, worksheets and answer keys

Special Features 1 to 5:

- » **We Will Learn About:** Learning objectives to help focus on the learning aims of the lesson
- » **Take-off:** Interactive lesson-opening tasks to generate a desire for learning
- » **Teacher's Tip:** Helpful suggestions for teachers to act as innovative teaching guidelines
- » **Words to Learn:** Meanings and definitions of important scientific words as a ready reckoner
- » **Touch Down:** Graphical representations of important concepts to make meaningful connections
- » **Fun Time:** Activities and tasks to make learning enjoyable

Special Features 6 to 8

- » **Learning Objectives** to help focus on the learning aims of the lesson
- » **Warm-up:** Interactive lesson-opening tasks to generate a desire for learning
- » **Science Vocabulary/Meanings of difficult English words:** Definitions of important scientific words as a ready reckoner and develop essential word power
- » **Recall:** A brief summary of the important points of the lesson for easy recapitulation
- » **Science and Technology:** Snippets to ignite a spark of interest leading to innovation

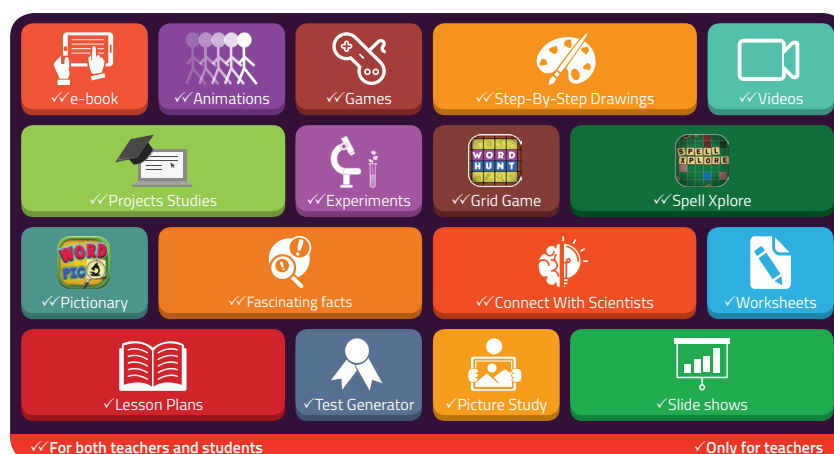

ISBN	Course book	Price

Frank Everyday Science

Classes 6 to 8

Frank Everyday Science follows a pedagogy that is hands-on and inquiry-based. Lessons have been planned so as to integrate knowledge from all spheres of life and link to a student's everyday experience.

- » **Learning objectives** is a ready reckoner of topics explained in the lesson
- » **Quiz time** reinforces knowledge and checks comprehension
- » **Activities** encourage experiential learning
- » **Let's summarise** is a list of key concepts for quick recapitulation
- » **Words to note** defines important terms for immediate comprehension
- » **Let's revise** has assessment questions, including Very short answer type questions, Short answer type questions, Long answer type questions, HOTS, Value-based questions, Projects, Activities, Life skills, and Problem Solving Assessment (PSA)
- » **Unit Test Papers** and **Model Test Papers** included in each semester for overall assessment of the students
- » **Do you Know?** is additional information that satiates the thirst for knowledge
- » **Beacons of Science** highlighting the achievements of some great scientists
- » **Teacher's tip** makes the teaching-learning process exciting
- » **Teachers' Manual** to facilitate teaching.

Frank New Certificate Physics/Chemistry/Biology

Classes 6 to 8

This series is written in accordance with the curriculum prescribed by the Council for the Indian School Certificate Examinations (CISCE). The books follow a disciplinary approach with a balanced focus on the six domains of teaching and learning science – concept, process, creativity, attitude, application and world view

- » **Connect** Warm-up activities to generate interest in the topic
- » **Eco-soldier** to sensitise students towards environmental issues
- » **Life skills** to hone various life skills
- » **Integrate** to make meaningful linkages within and across various subject areas
- » **Case Study** to make learning not only theoretical but expose students to practical solutions to some real-life problems
- » **Science and Scientist** to acquaint students with the life and works of some great scientists
- » **Myth or Fact** to address some commonly held misconceptions in science
- » **My Question Time** to develop the ability to question and find answers
- » **Science Speak** to develop observation, communication and critical thinking skills
- » **Scientific Dictionary** list of important words to enhance scientific vocabulary

Frank Primary Science

Classes 1 to 5

The books are written in a simple and easy to understand manner to meet the requirements of students at primary level.

- » **Accurate** and realistic illustrations and photographs for the students to relate to their immediate surroundings
- » **Fact file** for additional and interesting information
- » **Checkpoint** for self-assessment and revision of the topics learnt
- » **Recall** to recapitulate the major concepts dealt with in the lesson
- » **Science word pile** to familiarise students with science vocabulary
- » **Objective, subjective, and Higher Order Thinking Skills (HOTS)** questions to enhance thinking and reasoning skills
- » **Value-based questions** to develop life skills and imbibe values
- » **Know your scientist** to highlight achievements of scientists
- » **Fun time, additional activities, and projects** to encourage learning by doing
- » **Recap** for comprehensive revision
- » **Inventions by chance!** to acquaint students about great inventions made by accident or simple observations
- » **Science is fun!** includes hands-on activities and experiments
- » **My Green page** to create environmental awareness
- » **Posters on wellness** highlighting benefits of yoga as a way of life
- » A comprehensive **Teachers' Manual** to facilitate teaching.

Journey from Past to the Present is an integrated series of social studies textbooks that follows the guidelines of the National Curriculum Framework 2005. The themes of the series are drawn from various disciplines of social sciences, such as history, geography, political science and economics.

- » Simple language and point-wise presentation of facts to facilitate quick retention and recall
- » **Child-friendly layout** with attractive Illustrations/photographs and accurate maps augment the content
- » **Let's Vision It** at the beginning of each lesson creates a meaningful context for the concepts dealt with in the chapter.
- » **Learning objectives** for every lesson provide clearly defined and grade-level appropriate objectives
- » **Skill Focus** activities for developing critical thinking skills, such as information gathering, remembering, focusing, organising, analysing and evaluating.
- » **I Do I understand** are a range of varied text-based tasks and activities to help students practice and revisit new concepts
- » **Fun Activities** are hands-on activities related to real-life experiences and contexts of the students
- » **Word Builder** is a ready reference of key terms and their meanings
- » **Did You Know** provides interesting facts and trivia on the target concept
- » **I Have Learnt** summarises the key points of the lesson for recapitulation
- » **Test Papers** in Books 3 to 8 for revision
- » **'My Earth Songs'** by **Ricky Kej**, Grammy Award Winning Composer and **Art cards** based on the United Nations Sustainable Development Goals (SDGs) to sensitise students on environmental conservation
- » **Picture Connect** – powerful visual and illustrations at the beginning of each lesson for effective teaching-learning
- » **Comparative History and Politics** – to provide wider perspective and understanding of two contemporary concepts, personalities and events.

Frank Environmental Studies

Classes 1 and 2

Frank Environmental Studies is a child-centered series designed as per NCF, 2005.

The series follows a thematic approach covering the scope of Science and Social Studies in an integrated and infused manner. The focus is on learning **about the environment, through the environment** and **for the environment** as well as inculcating the dimensions of values, attitudes and life skills.

- » **Key Concepts:** A list of important concepts covered for teachers to plan the lesson
- » **Connect:** Interesting activities at the start of the lessons to generate curiosity
- » **Amazing Isn't It?:** Fascinating facts and snippets to make learning enjoyable
- » **Activities/Projects:** Hands-on activities using everyday materials to develop various process skills
- » **Check Your Progress/Evaluation/Test Papers:** A wide variety of pen-and-paper and picture-based questions to reinforce learning
- » **Challenge Questions:** Higher order questions to hone problem-solving, critical-thinking and analytical abilities
- » **Recap:** A summary of the lesson in the form of a mind map to build connections
- » **Integrate:** Tasks to make meaningful linkages within and across various subject areas
- » **Life Skills/Eco-Soldier:** Questions and activities to develop a sense of responsibility towards oneself and others, respect diversity and exhibit sensitivity towards environmental issues
- » **Teacher's Note:** Tips for teachers to facilitate learning
- » **Glossary:** A list of important terms as a ready reckoner
- » **Poster:** on safety
- » **Teacher's Resource Pack:** A range of teacher resources for each class, both print and digital, for effective classroom transaction and additional instructional ideas
