

## WELCOME TO MACMILLAN EDUCATION – SCHOOL BOOKS CATALOGUE 2013

Our children today are growing up in an extremely complex world, impacted by the benefits as well as the challenges resulting from globalisation and the consequent lifestyle changes. If the world is changing, it certainly needs to be complemented by making changes in our approach to education.

With the innumerable gigabytes of digital information available to students today, it becomes extremely important for a responsible publisher to empower students to distinguish between information and learning. We take this responsibility very seriously as we understand that a publisher is a *partner in education*, having borne this responsibility for over a hundred years and serving more than seven generations of students in Independent India.

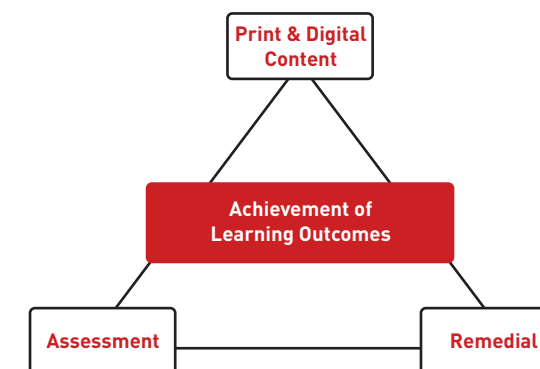

Appreciating that there is no quick fix to sound education, we have taken a fresh look at key priority areas like curriculum, innovative classroom strategies, technology-led learning solutions, as well as assessments and remediation to base our publishing plan. To ensure that all these processes take place seamlessly, we have enhanced our editorial capabilities and empanelled high-quality authorship.

While the state is seriously considering reforms in the same key areas, we are duty-bound to support these reforms by creating new learning materials which can be delivered in traditional as well as digital classrooms equally effectively.

Our focus has been to take realistic and practical steps forward by introducing *blended learning*, which takes into consideration the different learning patterns and the varying learning speeds of students.

The creation of the blended products is structured around the Macmillan Learning Pyramid where our print and digital content follows sound pedagogy, with well-defined and achievable learning outcomes.

Macmillan Learning Pyramid

We have built upon our core print content, supporting it with e-books, interactive CDs, websites, assessment tools, remedial materials and workshops.

All our best-selling titles are now supported by videos and 2D/3D animations.

We are delighted to participate in the process of building up an India which can proudly boast of empowered young citizens, considered to be a demographic asset to our country.

Wishing you the very best for a new academic year,

*Amitabh Nagpal*

## New World Interactive English

Anjali Dere, Uma Mani

*New World Interactive English* is a highly appreciated flagship ELT series, popular with both teachers and students, which has now been revised to meet CCE requirements using blended learning. It gently challenges students to engage with English meaningfully, equipping them to meet real-life language needs.

### HIGHLIGHTS

- Every unit offers scope for collaborative learning and formative diagnosis, presenting an atmosphere where self-motivation becomes inevitable
- Thematically linked lessons in every unit
- Provides adequate scope for honing individual language skills while exploiting one theme
- Includes all the writing tasks listed by CBSE with ample pre-writing support
- Includes comprehension questions based on the CCE pattern
- Well supported with an exhaustive teacher's manual with classroom instructions at each stage of the development of the lesson

## Kites

Vidya Bhawan Education Research Centre

*Kites* is a eight-level ELT series developed by highly experienced language experts to hand-hold students who have very little social exposure to the target language outside the classroom. The series encourages the idea of drawing strengths from bringing the mother tongue into the classroom where necessary, to enrich the experience of the second language learner.

### HIGHLIGHTS

- Follows the curriculum guidelines laid down by NCF 2005
- Focuses on developing oral skills at the beginner levels, graduating the students to listening and speaking, culminating in honing free and creative writing skills
- Teaches different writing formats and styles
- Supported amply by detailed teacher's manuals

### Great Fun with Grammar

N K Aggarwala

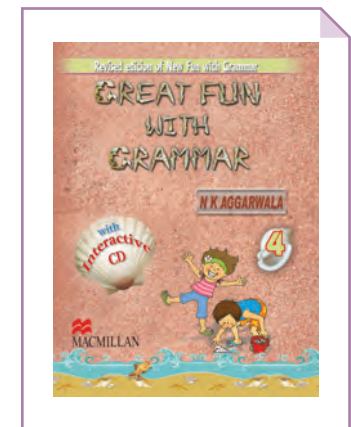

A time-tested favourite of the teaching fraternity, *Great Fun with Grammar* is a perfect blend of sound grammar teaching and interesting language-focused learning for Classes 1–8. Although CBSE has done away with teaching formal grammar in classrooms, the need for a reference point for teachers and students is a long-felt need.

#### HIGHLIGHTS

- Breaks the concepts at each level into cloze exercises which help the students deduce language rules
- Punctuation graded through the series to equip the students with a total understanding of what completes and polishes writing
- Supported with answer keys
- Pair work and group activities for Classes 1 and 2 to encourage interactive learning
- Interactive CDs for Classes 3–8 to aid reinforcement of concepts

**Little Leaders** (Classes 1 – 5) / **Young Leaders** (Classes 6 – 8)

Shiv Khera

This is a path-breaking series of books on character building and fostering good citizenship by Shiv Khera—the international best-selling author of *You Can Win*. The series is structured in such a way that the children will walk away with the most robust inputs to grow up to be contributing, productive adults, demonstrating values like integrity, honesty and respect, to shape our nation into a force that we always dreamed of.

**HIGHLIGHTS**

- Opens channels of communication between children and adults
- Embodies the thought process of the target age group
- Gives children plenty of opportunities to question, discuss and arrive at conclusions at each stage of development
- Activities, projects and tasks comply with the CCE scheme

Well supported with CCE booklets
