2020**

Dear Educators,

2020 will be an exciting academic year for all of us in the education domain, as we work to realise the government's vision for an integrated K-12 model with outcome-based learner-centric classrooms.

Since its inception in 1892, Macmillan Education India, has been known for pioneering innovation in learning. By understanding customers' voiced and latent needs and providing relevant content and training support, Macmillan has been able to create strong and lasting relationships with them.

In line with the recommendations of the proposed National Education Policy (NEP), Macmillan is introducing a new semester series called **Crimson** for classes 1 to 5 comprising Mathematics, English and Environmental sciences. A new term series called **Indigo** for classes 1 to 5 differs by having Social studies and Science for Classes 3 to 5 and EVS for classes 1 and 2. Both Crimson and Indigo, will focus on learners' cognitive, emotional and physical development and inculcate 21st century skills in them.

The proposed NEP emphasises alignment of curriculum with UNESCO's Sustainable Development Goals (SDG), **Eureka**, a successful science series has been revised to build the desired SDG awareness in learners. Our Social Studies bestseller, **Footprints** for classes 1 to 8 is also aligned to SDGs and is enhanced with fresh content and graphic tools to enrich the teaching-learning experience.

We are releasing a new EVS series called **Green Leaf** for classes 1 to 5 which will meet needs of all affiliation boards. **Green Leaf** will nurture curiosity and creativity, and develop sensitivity towards the environment in young learners.

In a new form are **My Book of Grammar and Composition** and **Mind Xpress** both for classes 1 to 8. The very popular semester series for primary classes **Fusion** will further delight teachers in its revised form, with activity based content.

We look forward to partnering with you and offering our unstinting support to make 2020–21 a successful academic year.

ADVANCING LEARNING

The **Curious Flower** is a metaphor for the way in which learning develops from the seeds of curiosity and imagination, and the role that educators play in spreading that knowledge to learners around the world.

Macmillan Education has been advancing learning for over 175 years. Since the earliest days we have established ourselves as a world leading publisher, building strong partnerships with educators, innovating in pedagogy and digital content, and inspiring learners to achieve more.

In classrooms around the world we know how transformative learning English can be, and we are passionate about providing students and their teachers with everything they need to succeed in education, in the workplace, and in life. We do this by:

- Listening carefully to the needs of teachers and learners, translating this knowledge into insights that shape the future state of education
- Connecting teachers with the latest research, new pedagogies and world-class experts, sharing the best in global education and making it accessible locally
- Developing highly relevant content and resources that make teaching rewarding and learning effective, ensuring measurable successful outcomes
- As education adapts and changes at an ever-increasing pace, we will always be there – empowering the world's teachers to inspire students on their lifelong journeys in education.
- Building lasting relationships with teachers and lecturers, providing guidance, support and inspiration on their professional development journey

HI! HELLO!

Classes: Nursery, Junior KG and Senior KG

Preschool is an important stage in a child's life as they begin to observe and explore the world around them. Recent research has shown clear evidence that the brain develops to its maximum potential during early years. It is therefore important to create a stimulating and enriching physical and psychosocial environment to help the child's brain develop to its full potential. This stage is also important as a foundation for the inculcation of social values and personal habits, that last a lifetime.

Based on this understanding, **Hi! Hello!** aims at providing ample opportunities to facilitate the holistic development of children in all domains.

9789389466805	Junior Kg	850.00
9789389466812	Senior Kg	850.00

Objectives of Hi! Hello!

- To respect the individual differences of children
- To enhance the all-round development of children through developmentally appropriate activities
- To develop cognitive skills for a smooth transition from preschool to primary school
- To make children effective communicators and involved learners
- To continuously assess and evaluate children

Components of Hi! Hello!

The series comprises three kits for classes—Nursery, Junior Kg and Senior Kg.

Each kit includes

- Literacy skill sheets
- Numeracy skill sheets
- General awareness skill Sheets
- Rhymes and stories
- Practice Workbook
- FREE teacher's resources: daily lesson plans, additional worksheets, e-books, animations-rhymes and stories, flash cards, Games and Apps.

NEW HORIZONS TODAY

Classes: 0A to 8

Readers reflect the latest trends in English Language Teaching and meet the current requirements of a changing curriculum and methodology.

The series effectively combines the best of traditional methods with the more recent approaches to help students use English both accurately and fluently. The focus is on sharpening four basic language skills through activities interwoven in exciting and familiar contexts for today's learners.

- Inclusion of extracts from the timeless classics of English literature
- Rich variety of exercises with scope for classroom interaction and communication
- Tasks which draw upon the student's language competence to skim, scan, infer and analyse the text for global and inferential comprehension
- Well-defined activities to internalise graded, common vocabulary
- Coverage of all important concepts and revision through well-explained definitions and examples
- Inclusion of well-defined Listening and Speaking activities for an integrated approach to learning of the language
- Workbooks with interesting activities for reinforcement and recapitulation of concepts covered in the Readers.

KITES

Classes: 1 to 8

Kites is an ELT course developed by language experts to handhold students who have very little exposure to the target language outside the classroom.

The series encourages the idea of drawing strengths from bringing the mother tongue into the classroom where necessary, to enrich the experience of a second language learner.

- Focus on developing oral skills at the initial stages, followed by literacy skills
- Rich variety of reading texts to sustain learners' interest in a new language
- Comprehension covers factual, inferential, analytical, evaluative, and extrapolative questions
- A Ready Reference for Essential Grammar at the end of the book to recapitulate the concepts learnt
- Fun activities to engage the students' interest
- Workbooks directly linked with the Readers—provide extension and practices of the language and grammar items learnt, besides reading comprehension and other language activities
- Supplementary Readers offer a treasury of national and international literature.

MATHS XPRESS

Classes: 1 to 8

Maths Express has been designed and developed by practising teachers and Maths experts.

- Easy explanations of concepts
- **Maths Around Us** helps students apply mathematical concepts in real-life situations
- **HOTS/Target Olympiad** empowers students to think out-of-the-box
- **Speed Maths/Mental Maths** prepares students to carry out quick calculations
- **Enrich Yourself** provides deeper insight into the concept under study
- **Interactive Practice Sheets** at the end of the chapter provide hands-on learning, and reinforce the concepts learnt in an engaging way
- Questions and examples are well-graded and cater to various difficulty levels.
- **Maths Engine**, at the end of each book, with challenging questions to develop problem solving skills

MOREMATHS

- MoreMaths is a diagnostic question bank for classes 4-10 with over 10,000 questions.
- MoreMaths evaluates a student's learning and suggests remedial measures to fill in learning gaps.
- The questions in MoreMaths:
 - » are listed topic wise
 - » have been graded as per level of difficulty – Difficult, Medium & Easy.
 - » are tagged to learning outcomes of Knowledge, Understanding, Application and Synthesis.
 - » have marks allocated to them
- More Maths allows students to generate practice sheets from the portal and practice on their own.
- More Maths is supported by slide shows, animations and videos to enhance learning

CPA MATHS

Classes: 1 to 8

CPA Maths is based on the NCF 2005 guidelines, is a series of mathematics textbooks. Books for classes 1 to 5 come with companion Mastery Worksheets. The series focuses on the highly effective Singapore Approach of teaching mathematics. The Approach lays a greater focus on in-depth understanding and mastery of concepts rather than breadth in content and memorisation.

- **Let's Recall** builds upon prior knowledge and skills of students and sets the stage for the concepts to be taught in the lesson.
- **See and Learn** allows students to understand and progress through visual concepts.
- **Do and Learn** engages students to apply what they have learnt in a systematic manner.
- **Hands-on Activity/Pair** and Share enhances understanding of mathematical concepts through the use of manipulatives, and helps students communicate and discuss with their peers.
- Let's Have Fun reinforces the grasp of mathematical concepts through games and activities.
- Self-check helps students reflect and self-assess their learning.
- **Let's Think** Along checks students' mastery on the concepts through higher order thinking skills questions.
- **Mastery Worksheets** allow teachers to monitor and assess students' grasp of concepts and readiness levels using differentiated worksheets of levels L1(Basic), L2 (Standard), and L3(Challenge).

What is CPA?

CPA: Concrete, Pictorial and Abstract

In the concrete step, students engage in hands-on learning experiences using **concrete** objects such as chips, dice, or paper clips. This is followed by drawing **pictorial** representations of mathematical problems and then in an **abstract** way using numbers and symbols.

GO WITH LINUX

Classes: 1 to 8

Go with Linux is a series of computer science books which makes use of a variety of Free and Open Source Software (FOSS) on the user-friendly Edubuntu distribution, an educational version of the Linux-based Ubuntu operating system.

The curriculum conforms to the guidelines recommended by the National Curriculum Framework, 2005. Keeping in mind the limited number of class hours available for computer studies at the primary and middle-school levels, the lessons have been kept simple in content and language.

- Lessons adopt a hands-on, step-by-step approach to facilitate easy understanding
- A large number of **laboratory activities** in the **Let Us Do** section encourage learning-by-doing.
- **Let Us Learn** at the beginning of each chapter outlines the scope of study
- A variety of in-text features such as **IT Genius**, **ICT Today** and **Did You Know** offer interesting insights into the world of computers
- **Let Us Revise** contains recapitulation points at the end of each chapter.
- **Comprehensive exercises** at the end of each chapter test the understanding of concepts
- **Teacher's corner** at the end of each lesson provides useful hints to teachers
- Mid-term **Worksheets** and year-end **Revision Worksheets** provide practice questions for assessment
- **Projects** at the end of the book offer more practice on the topics learnt.

GARDEN OF LIFE

Classes: 1 to 10

Education is complete and comprehensive only when academics with its knowledge embraces value education with its wisdom. Knowledge as 'information' must be guided by wisdom as 'transformation' to empower children to become architects of a beautiful world.

The earth is reeling under countless challenges in this new millennium. Academic education has to work hand in hand with value education to create a global community of young people who balance their personal growth and contribute to humanity in their own ways.

Garden of Life, a series on Value Education is designed and developed with this larger and all-embracing vision. Through this series, children, parents and teachers unite to create a happy, healthy and harmonious educational ambience. Thus empowered, schools and families create a firm foundation upon which is built a superstructure of a more prosperous, progressive and peaceful society, nation and world.

- **Warm-up** - activities and tasks for reorientation
- **Think** - Thought-provoking and introspective section
- **New stories** in the present context, to teach values as suggested by the NCERT
- Easy-to-understand language
- Activities and games related to the values taught in the lesson.
