

A new exciting, digital learning app
which helps you learn and explore
diverse topics of interest

Zippee is your Zipway to a World of Knowledge!

- Anytime, anywhere learning comes alive on mobile for students, teachers, parents and schools alike.
- Window for Parents to help them stay connected with their children's performance and provide the required support.

DESIGNED TO PROVIDE A RICH EXPERIENCE TO ALL!

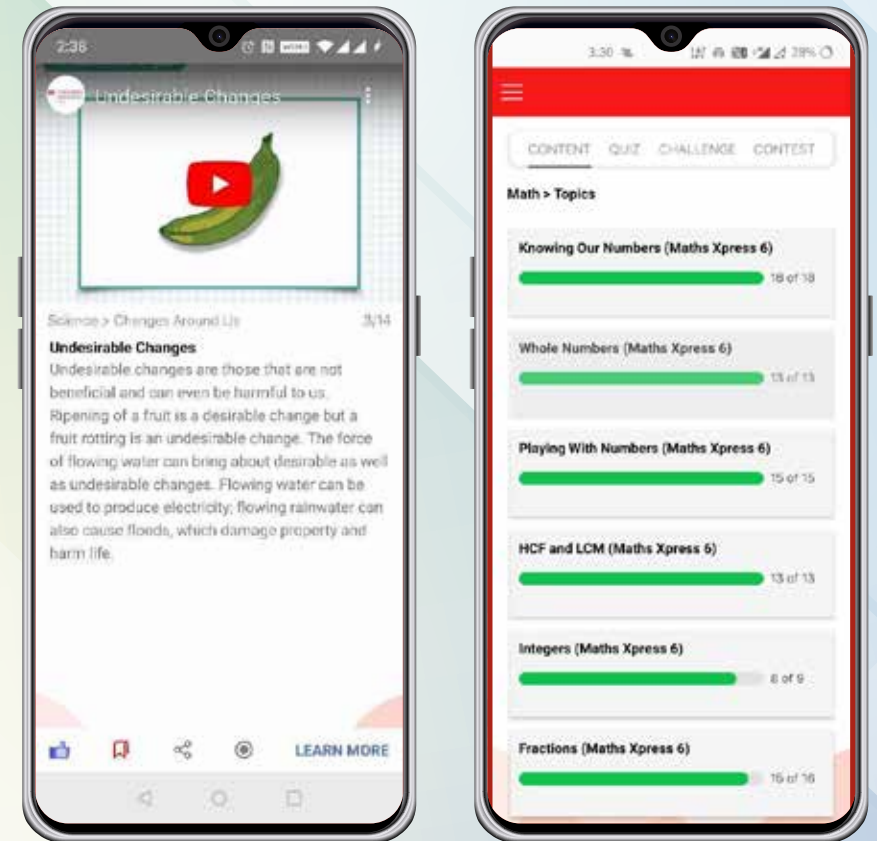

- **For Teachers:** Quizzes, Challenges, Contests, Lesson Plans, Digital resources, Tracking and Evaluation, Classroom management, Homework Assignment, Lesson Planning support, Reports and Analytics.
- **For Students:** App with content shared as Snippets, Worksheets, Animations, Quizzes, Challenges, Contests, Usage Report with Analytics, Aptitude and Learning Style Tests.
- Seamless communication through app for students, parents and teachers.

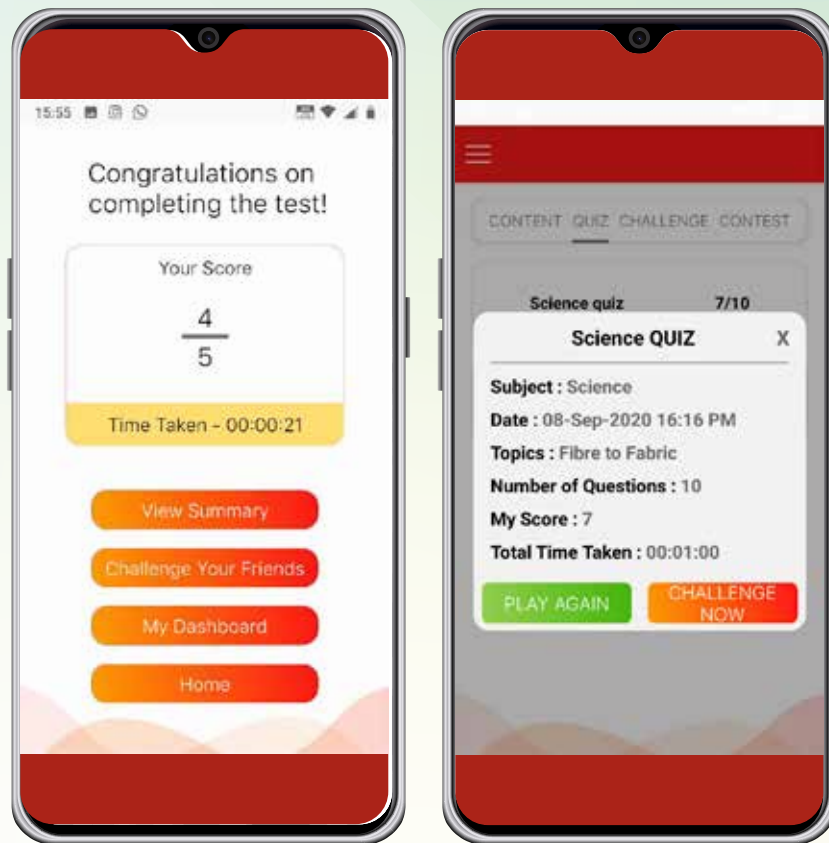

PROMOTES SMART LEARNING

- **My Shelf** – Displays subject-wise content
 - » Topic wise learning of any subject in snippets
 - » Action buttons such as Like, Share etc for each Snippet
 - » Bookmark the Snippet
- **Learn More** – Popup with detailed content for each Snippet
- **Homework** – Teacher can assign homework to students and students can check any homework given by teacher
- **View Performance** – Students can check how they are doing on that topic and Teacher can track their performance
- **Lesson Plan** – For teachers, to view the available lesson plans for the topics and to create their own lesson plans
- **Quiz** – To practice (Quiz with MCQ questions) at the end of each topic

IMPROVE UNDERSTANDING WITH PRACTICE TESTS

3 EASY STEPS TO TAKE A TEST

Teacher will inform the students about an upcoming test. Upon receiving the information, students will follow the steps shown below to take the test:

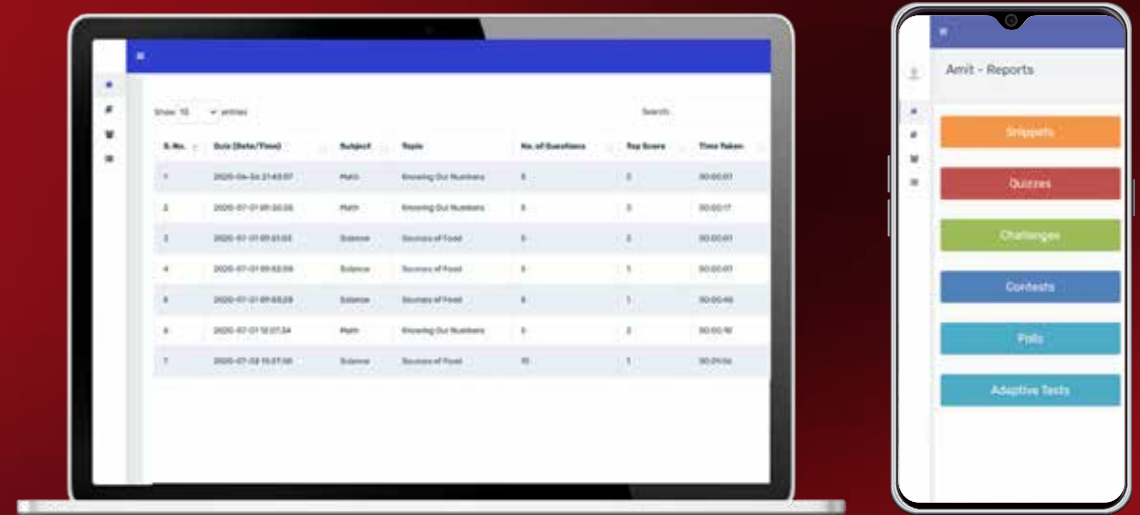

1. Click on Tests.
2. Select the subject for which you want to take the test.
3. Select the required test.

CHALLENGE CLASSMATES

PERFORMANCE DASHBOARD

Zippee offers extensive reporting features and as a teacher, you can access different types of reports. The types of reports include detailed student-specific reports and functional reports such as number of students in a class, number of contests created for a class, number of assigned books and more.
