INTRODUCING JUST LEARN

Just Learn is an online learning platform that digitises the complete teaching-learning-admin requirements of an institute.

HELP YOUR INSTITUTE BECOME FUTURE-READY

The world has changed drastically in the last few years with a shift towards digitisation and the internet-of-things. The current times have accelerated this change, and education has become more dynamic and flexible. Online / blended education helps in managing uncertainty and assists your educational institute or projects in becoming future-ready and sustainable.

THE BENEFITS OF ONLINE EDUCATION

From breaking the barriers of geographies and language, to connecting learners who cannot attend full-time classes, online and blended education are revolutionising education!

Enhance learner productivity

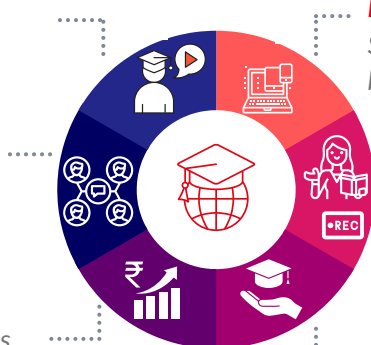

Students learn at their pace with a way of learning suitable to them.

Increase enrolments

Reach out to learners in different geographies, working professionals, etc.

Cost-Effective

Save on institute's overhead expenses.

Flexibility and interactivity

Study anytime, anywhere. Real-time communication between learners, teachers, and admins.

Record & monitor

Every training/class gets logged.

More opportunities

Connect learners with different opportunities online employability, jobs, scholarships, guest-lectures, notifications, and updates.

JUST LEARN ADDRESSES THE REQUIREMENTS OF:

Universities and colleges.

Educational / training institutes.

CSR skilling / re-skilling / training.

Corporate training / staff training.

Listing your courses online for sales.

and more!

Wondering how Just Learn can help your organisation?
Connect with us today for a demo and discussion.

CONNECTING ALL STAKEHOLDERS IN EDUCATION

Unique dashboards for all stakeholders in education

Make teaching more effective

- Create courses
- Upload content: docs, videos, audios, multimedia, etc.
- Schedule and conduct live-classes
- Webcam-based teaching
- Record live-sessions
- Create tests in all formats (subjective/objective/practical)
- Give assignments
- Monitor learner-attendance
- Issue certificate

TRAINERS

Enable learners

- Access course-content
- Attend live-classes
- See recorded live-classes
- Submit assignments
- Attempt tests/exams
- See performance reports
- Get notifications on course updates/activities in class
- Participate in discussion-forum to interact with teachers and batch-mates
- Get personalised certificates
- See uploaded content after course-completion

LEARNERS

ADMINS

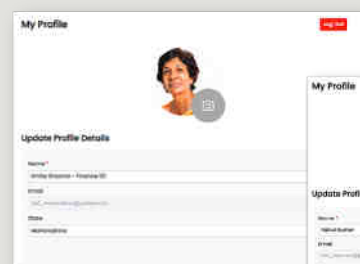

GUESTS

Monitor your institute

- Get students assigned to classes/batches
- Monitor all classes and daily performance of students and teachers
- Enter any live-class
- Keep records of attendance
- Get batch-wise and learner-wise in-depth MIS reports
- Send/monitor notifications
- Collect fee online

- Guest speakers, additional faculty, motivational-speakers, etc. through live-classes

PERSONALISED USER PROFILES

OVERVIEW OF PLATFORM FEATURES

ADMINISTRATIVE

- Create batches / classes, get students assigned
- Monitor all classes / virtually walk into any class
- See all batches/classes' uploaded content
- View completed, ongoing, and upcoming classes
- Get batch-wise, learner-wise in-depth performance reports
- Send / monitor messages and notifications
- Get completion-certificates assigned

REPORTS

- Batch-wise / location-wise learner activity and performance reports
- Attendance records of learners
- Live-classes reports - completed, ongoing and upcoming
- Trainer activity and class reports
- Assessments reports - tests and exams and more!

CONTENT UPLOAD

- Upload course content – documents, videos, audios, multimedia, etc.
- Upload SCORMs (interactive HTML-based content)
- Create tests, exams, quizzes.
- Type / paste / format text, images, links.
- Include iframes
- Give assignments in various formats - text, picture upload, pdfs, video/audio, etc.

DOCUMENT MANAGEMENT

- Asset libraries
- Question banks
- Live-class recordings
- Store and share all files with trainers / learners
- Give content access to designated users
- File formats - docs, videos, audios, text, iframes, links, SCORM, etc.

LIVE SESSIONS

- In-built live-tool
- Web-cam based interaction / multi webcam view
- Share-screen, share presentations and videos
- Record sessions for later view - accessible to trainers, learners, admins
- Whiteboard teaching tool
- Create breakout rooms
- Take quick attendance, save chats

MESSENGER & FORUM

- Unlimited push notifications
- Integrate emailers and SMS messages
- In-built chat-forum to interact with trainers / admins / batchmates
- Automated notifications on scheduling / rescheduling live-classes, course content update
- Notifications dashboard for admins / trainers

DATA SECURITY

- Restrict content-sharing outside the platform
- Custom watermarks on content
- Restrict screenshots from app
- Complete admin control on content / course access.

MOBILE APP

- Learner-side mobile application
- Available on Google Playstore and iOS
- Offline content availability - learner accesses uploaded study-material offline.
- Connect with study-material, classes, discussion forum, interact with teacher anytime, anywhere!

CONNECT WITH LEARNERS

LIVE CLASSES

Chat-box

Save and download chats

Web-cam based teaching

Trainer and learners can use webcams. Multi webcams supported for classroom interaction.

Students / learners

Take quick attendance, save participant-list, manage session

Create breakout rooms

Virtual rooms for student group-activities

Record live-sessions

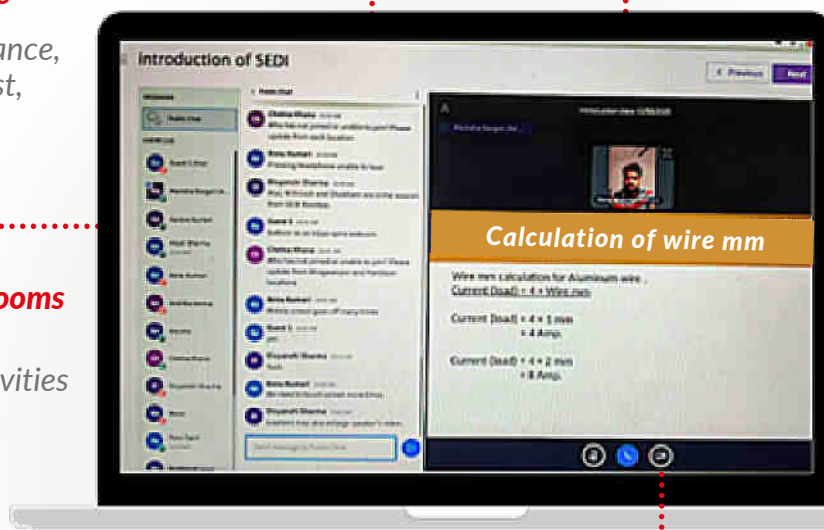

All recordings available in teacher/ admin / student dashboards for later view.

Share presentations / videos during lessons

Make your live sessions more interesting by sharing resources.

Share screen

Trainer can share their laptop screens.

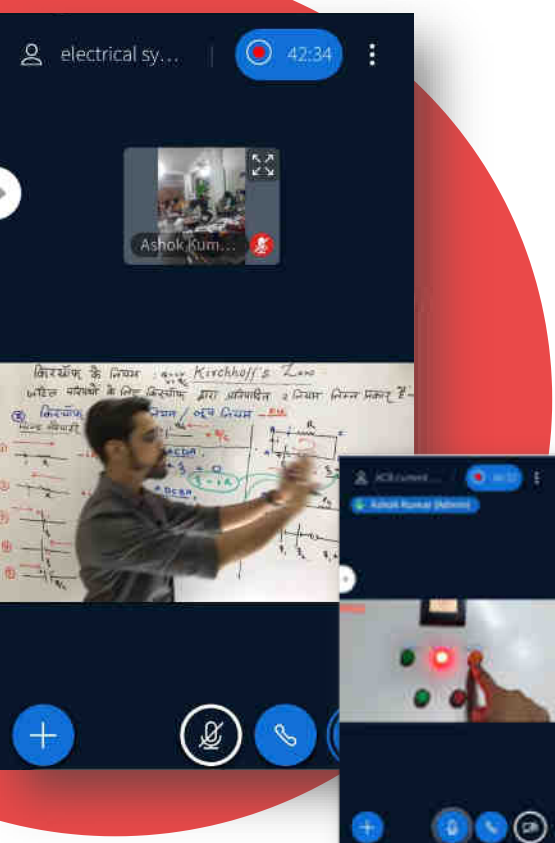

When practicals go online!

The seamless live-class environment of Just Learn assists a teacher in taking their lectures and practical demos online.

Multi webcam support, whiteboard area, video-sharing in class, screen-sharing, presentation-sharing, document markup, full-screen camera views and more to help conduct and record sessions.

Trainers can make students 'presenters'. Students can show their work, presentations, videos, and can even talk live for a face-to-face assessment.
