2025
SCHOOL CATALOGUE

Dear Educators,

As we embark on a new academic journey aligned to National Curriculum framework for School Education 2023 (NCF-SE 2023), we are excited to share with you, our innovative learning solutions which incorporate new pedagogies and technology.

With *Hop Skip and Jump*, Macmillan has been a forerunner in pre-primary education and this year we are delighted to bring an innovative programme **P.L.A.Y. Time!**[™]. This foundational learning programme emphasises the pedagogy of play in early years and the role of an engaging classroom environment. The workbooks and the Play learning kit with manipulatives, supports cognitive, social, and emotional growth.

Building on the experience of our blended learning solution Altura, we have developed **Altura aligned to the CISCE curriculum** for grades 1 to 5, providing comprehensive content with a learning management system. Extending Altura to early years, we are releasing **Altura Buddies for three levels-Beginner, 1 and 2**, which follows the latest theme-based approach with engaging digital resources. This approach integrates thematic learning with play, making early childhood education both enjoyable and effective.

Coding is fast emerging as an essential life skill. To introduce Computational Thinking in early years and Coding and AI as learners progress, we are releasing a new blended learning solution called the **Emerging Tech Stars**. This programme includes **textbooks, a coding journal and a coding platform**. Students will learn programming basics in a logical, step-by-step manner, building coding skills through practical engagement with applications like Scratch and Python, and languages such as HTML and JavaScript. We are looking to support educators in the area of teaching AI and Coding through our partnership with Microsoft, for professional development courses.

Our path-breaking **CPA Maths series** based on the Singapore approach of teaching Mathematics, has been enhanced with manipulatives for classroom activities like bar modelling to develop conceptual understanding and inculcate a love for Maths.

Our catalogue features a wide range of textbooks and supplementary resources for various subjects and grade levels, ensuring a fulfilling experience for both teachers and students. These resources are aligned to the NCF-SE 2023 leveraging technology to enhance learning, through interactive e-books, online assessments, and multimedia resources that integrate seamlessly into teaching.

We extend our sincere gratitude to all our partners, educators, and stakeholders for their unwavering support. We remain dedicated to continuously improving and adapting our resources to meet the ever-changing needs of the education community. Together, let us shape the future of education and empower the next generation of learners.

Warm regards,

Rajesh Pasari
Managing Director

4A Model of Assessment, Enrichment and Remediation

- Creates awareness of India's rich heritage
- Encourages the use of Technology
- Offers Competency-based Assessments
- Focus on Foundational Literacy and Numeracy
- Supports 21st Century Skills Development
- Builds Conceptual Understanding

II. Write T (true) or F (false) for the following sentences and circle the incorrect word/words.

1. People who live near you are your relatives.
2. There are different types of neighbourhoods in a community.
3. Urban areas are places that lie in the countryside with more open spaces filled with farms and trees.
4. A town is bigger than a city.

III. Match the words to the pictures.

IV. Answer the following questions.

1. What is a community?
2. What do people do in a community?
3. Write any three things about a rural community.
4. What are the different types of urban communities?

Higher Order Thinking Skills

1. What are some ways in which land is used in rural and urban communities?
2. What is one way that a city depends on a village, and a village depends on a city or town?

Competency-based assessments

to promote learning and development, and test higher-order skills, such as analysing, critical thinking, and conceptual clarity

Cross-Curricular Projects and Project-Based Learning

tasks to develop knowledge, understanding and practical skills through a study of interconnected topics

Learning by Doing: A Cross-curricular Project

THEME: EARTHQUAKE

Learning Outcomes

- Understand the causes of earthquakes.
- Know how the 'trough' of an earthquake is formed.
- Understand the difference between an earthquake and an aftershock.
- Find out where the major earthquakes have occurred and their magnitudes.
- Compare the intensities of the earthquakes.

Calendar Connections

- Social Science
- Science
- Math
- Technology

21st Century Skills

- Communication
- Critical thinking
- Technology literacy
- Self-management

Year	Country	Intensity (Richter Scale)	Deaths	Injured	Displaced
1904	USA	8.9	200	1000	10000
1906	USA	7.8	200	1000	10000
1934	India	8.2	200	1000	10000
1975	India	7.5	200	1000	10000
1994	India	6.3	200	1000	10000

21st Century Skills

skill-based activities that strive to fulfil the vision of the NEP 2020

General Knowledge Resources

Unit 1 Childhood

1 Roy's Noisy Secret

LESSON SCHEMA

Learning (Vocabulary and Grammar): learn words, understand meaning, use words in sentences, identify parts of speech, use words in context.

Understanding (Reading and Comprehension): understand the main idea, identify the characters, understand the sequence of events, identify the cause and effect.

Applying (Writing): write a paragraph, write a story, write a letter, write a report.

LEARNING OUTCOMES

At the end of the lesson, the learner will be able to:

- recall the details of a story
- make use of contextual meanings of words
- recall the different types of nouns
- make use of the order of adjectives
- apply correct punctuation in direct words into syllables
- select the correct options based on audio-visuals
- justify a statement
- compose an informal letter

Warm-up

Work in pairs. Discuss what 'childhood' means to you. Fill in the graphic below.

CHILDHOOD

My India, My Pride

The Union Ministry of Culture in India has started 'Lifestyle for Environment (LIFE)'. This initiative aims to protect and preserve our natural environment. Environmental activists from different states have been highlighted as 'Green Warriors'. Find out the story of an environmental activist from your state and write a short report. How has his/her location impacted his/her work?

My India, My Pride

inculcates a sense of rootedness in the heritage of our country

Activity

to aid in experiential learning

Activity 1

Departmental Learning

Study yourself carefully in a mirror and write down the number for each part of your body in the given boxes.

How many of each do you have?

nose	mouth	tongue	
eyes	ears	arms	hands
legs	knees	feet	
fingers	toes		

Let's Talk!

Will you be able to write if you hurt your thumb?

USES OF OUR BODY PARTS

All the different parts of our body are used for doing different activities. We use our hands and arms to work and play. We also use our hands to:

We use our legs and feet to move. We also use our legs to:

Concepts

explained in lucid language, supported with accurate illustrations/photographs

ALTURA Integrated Learning Management System (LMS)

Make data-driven decisions using ALTURA reports

Teacher, Student and Parent App

Works on browsers:
Chrome, Firefox, Edge and Safari

Integration with virtual classroom software
Google Meet, Microsoft Teams and Zoom

Altura Buddies is an integrated and comprehensive pre-primary child-centred programme. Aligned with the National Curriculum Framework for Foundational Stage 2022, **Altura Buddies** is based on the *Panchakosha Vikas* (five-fold development) and follows *Panchaadi*—the five-step learning process.

Following the curricular goals and competencies of the NCF 2022, **Altura Buddies** follows a transdisciplinary approach, with each workbook focusing on a **theme**. The learning materials in **each theme** link connections in **Foundational Literacy and Numeracy (FLN)**, general awareness, art and craft, physical development and technology.

It has an integrated Learning Management System (LMS) to provide learners with a personal learning experience. Contents can be accessed anywhere and anytime. Teacher, Student & Parent Individual logins which can be accessed by browser & app. Interactive E-books with embedded multimedia resources & activities for self-learning are available in the Teacher & Student Resource Centre.

Altura Buddies Level	No. of Books	Price
Beginner	8	3104.00
Level 1	8	3308.00
Level 2	8	3511.00

MRP includes 18% GST on LMS.

- **LMS includes all digital resources available through the separate log-ins to Teachers and Students**

DIGITAL LEARNING RESOURCES

This book is accompanied with a ready-to-use smart suite of digital learning resources, closely linked to the curriculum and aligned with the coursebook. Click on the URL to access the digital learning resources.

EMERGING TECH STARS

Based on Windows 10 and MS Office 2016

Classes: 1 – 8

Aligned to the NEP 2020 and NCF for school education 2023 guidelines, this blended learning series introduces the learners, through hands-on experiential learning, to the basics of computers and computer programming, enabling them to first become efficient users and gradually empowering them to become effective creators.

Each class features two books: the Coursebook and My Coding Journal.

Books 1-5 are aimed at introducing students to the idea of using computers for their everyday tasks. They learn to use commonly available software applications like MS word, MS Paint, PowerPoint, and Excel that can help them apply and consolidate their learning in other subject-areas as well.

Books 6-8 are designed to build on students' skills and creativity with a focus on strengthening their understanding of computer programming.

My Coding Journal 1-8 - A parallel strand of simple programming is introduced from Grade 1 onwards helping students transition smoothly from using Scratch to build games to websites and using HTML and CSS.

Coding and Learning Platform

For more academic resources like e-books, videos, worksheets, quizzes and coding projects you can log on to the platform by following these easy steps:

STEP 1

Enter the following URL in a browser to open the login page:

<https://macmillan.codevidhya.com/login/index.php>

STEP 2

Enter the Username and Password (will be shared by your school)

STEP 3

Access all the resources available on the platform!

To boost in-depth learning, the design model follows the blended learning approach with examples from the books augmented with online source code on the learning platform.

- Clearly defined **Learning Outcomes** at the beginning of each chapter
- Creative **Warm-up** sections in each chapter
- **Your Turn** - providing immediate guided practice
- **Activity Time!** - variety of exercises
- **Fun Fact** - fascinating facts related to computers
- **Did You Know?** - general interesting facts
- **Tech Talk** - encourages students to communicate their thoughts in class
- **In the Lab** - activities to perform practical exercises on a computer
- Online resources like **Projects and Quickcode** are designed for advanced learning.
- **On the Platform** - provides interactive exercises for students to reinforce their learning
- **Math Byte** - link between computers and grade-specific maths concepts
- **Summary** - revise concepts of a chapter by providing the key learnings
- **Practice Time** - to revise; questions

- linked to different levels of Bloom's Taxonomy
- **Revision Worksheets** - provides additional practice

- **Dos and Don'ts** - at the end of each chapter to draw students' attention to best practices
- **For Parents** - to assist their children in the learning process and encourage their efforts

Key Features of Emerging Tech Stars Coursebook and My Coding Journal

1 Microsoft Excel for Beginners

Learning Outcomes

After completing this chapter, you will be able to:

- distinguish between spreadsheets
- explain parts of the MS Excel window
- enter data in a worksheet
- show different ways of formatting and evaluating data in Excel

Warm-up

Adhira must perform a science experiment that grows with different types of water. Let us help her. On a set date each week, collect the data required. Observe how different types of water affect plant growth. Write your observations and results and draw a table to make charts that help you analyse your findings. One example is done for you.

Activity	Day	Plant A (Tap Water)	Plant B (Distilled Water)	Plant C (Salt Water)
Plant growth with different types of water	1	2 cm	3 cm	3 cm

Introduction

Microsoft Excel is a popular spreadsheet program that is part of the Microsoft Office package. It helps us organise and store data, keep track of this data, and perform various mathematical calculations on the data. In this chapter, you will learn how to use Excel to enter your data, enter and view formulas, and use various features like a spreadsheet to help you organise data in rows and columns, like a table. You can use it to do many calculations easily. Imagine

2 Formatting Features in MS Word

Learning Outcomes

After completing this chapter, you will be able to:

- add bullet points and numbers to a word document
- use the spelling & grammar checker to correct errors
- format a paragraph using the various options available in Word
- change the page layout of a Word document
- create and format tables in a Word document

Warm-up

Look at the following images. Do you recognise which application the window belongs to? Identify and mark the use of all the features.

7 AI Implications and Ethics

Learning Outcomes

After completing this chapter, you will be able to:

- define artificial intelligence (AI) and take its importance
- list the advantages and disadvantages of AI
- explain the importance of ethics in AI

Warm-up

Previously you learned how AI (artificial intelligence) can analyse and predict information. We will now dive further into the fascinating world of AI and explore how it is changing the world around us in many ways.

To help you explore this, we will work together in groups to look at different scenarios where AI is used. We'll share ideas from other technologies that help us solve problems they might face. And why it's important to use them wisely. So get ready to put on your thinking caps and become AI Engineers!

Scenario 1: AI in Education

- A robot in your classroom helps the teacher by answering questions, grading homework and suggesting new learning activities based on your interests.

Scenario 2: AI in Healthcare

- A smart assistant in hospitals helps doctors by analysing medical reports, suggesting possible treatments and reminding patients to take their medicines on time.

Scenario 3: AI in Everyday Life

- A virtual assistant at home like Alexa or Siri helps with tasks such as setting alarms, playing music and giving weather updates.

Project 1

criticthinking
creativity

Create a project in Scratch to show a butterfly flying. You can choose a butterfly Sprite of your choice from the Sprite library.

Hint: Use the following blocks from the Blocks Palette. Look closely and identify the changes you will need make to the blocks for the project.

Events category:

- when green flag clicked block

Motion category:

- if on edge, bounce block
- set rotation style [left-right] block
- move 10 steps block

Control category:

- Forever block
- wait 0.1 seconds block

Looks category:

- next costume block

Pay close attention to how these blocks are arranged in the image below. Do you understand what each block is doing? Why do you think following the correct order of the blocks is important?

Teacher's Note: Show the students how a relevant backdrop can be added to the Stage for this project. Encourage them to get creative with the backdrop they choose.

Moving Files and Folders

1. Click the file or folder to select it.
2. Hold the mouse button and drag it to the desired location.
3. Release the mouse button. The folder is now moved to the intended place.

Tech Talk

If your school library had digital copies of all the books, how would you save that on the library's computer? What would be the folder structure?

- communication
- critical thinking

Math Byte

If you have 3 folders, each folder contains 2 subfolders and each subfolder contains 4 files each, how many files do you have in total? Draw this to understand better.

- critical thinking

Key Words

- **Data:** Information stored on a computer, like documents, pictures, music, and videos
- **Files:** A file is like a digital version of a paper document. It can be a text document, a picture, a song, or a video stored on your computer.
- **Folders:** A folder is like a special container that holds files. Just like you use folders to keep your school papers organised, you use computer folders to keep your digital files organised.
- **File extensions:** A file extension is the last part of a file name, usually after a dot, that tells you what kind of file it is. For example, .txt means a text file, and .jpg means a picture file.

44

Math Byte

The smallest unit of data that a computer can store is called a bit. Bit stands for binary digit. A bit can have only two values: 0 (off) or 1 (on). When you use the Internet, data is sent and received in units called bytes, where 1 byte = 8 bits.

There are other units too, such as kilobyte, megabyte and so on.

Byte (B)	1 byte = 8 bits
Kilobyte (KB)	1 KB = 1024 B
Megabyte (MB)	1 MB = 1024 KB (= 1024 × 1024 B)

Imagine you are downloading a picture from the Internet. The picture is 3 MB in size.

How many kilobytes is the picture?

Solution: 1 MB = 1024 KB

So, 3 MB = 3 × 1024 KB = 3072 KB

Think: If your Internet connection can download 512 KB of data per second, how long will it take to download the 3MB picture? Explain your reasoning.

Did You Know?

Did you know that you can use PowerPoint to create your own interactive games? By using buttons and links, you can make quizzes, choose-your-own-adventure stories, and other fun activities right in your slides!

Tech Talk

AI can learn from experience, just like you do! For example, when you play a game on your tablet, the AI learns your moves and tries to get better at playing against you. Do you think you can beat the computer if it keeps getting better with every game? Discuss.

- critical thinking
- communication

On the Platform

Take this quiz to test your understanding.

Do

Save your file frequently to avoid losing your work.

Don't

Don't add too much data in a single cell.

For Parents

Introduce your child to the basic parts of Excel, such as cells, rows, columns, and simple functions like SUM and AVERAGE. Show them how to enter data and perform basic calculations. Allow your child to experiment with Excel and explore different functions and tools.

Fun Fact

The English alphabet has 26 letters and more than 1,70,000 words with these letters. The Khmer language of Cambodia has 74 letters and is the longest alphabet in the world!

Play Learn Apply Yourself

A learning programme for foundational years

P.L.A.Y. Time!™ is where play is at the heart of everything.

P.L.A.Y. Time!™, a series of workbooks for the foundational years of Nursery, Jr KG and Sr KG, has been created with the objective of bringing the ‘joy of play’ into early years of learning.

The programme helps achieve the curricular goals and competencies as envisaged by the National Curriculum Framework (NCF) for Foundational Years 2022 with a clear focus on :

- Foundational Literacy and Numeracy
- Inclusivity
- Holistic development
- Life skills
- Technology integration

Using multiple tools and techniques, P.L.A.Y. Time!TM ensures development in all the five key domains:

- Language and literacy development (Manipulatives and Workbooks)
- Cognitive development (Manipulatives and Workbooks)
- Socio-emotional and ethical development (Games, Stories and more)
- Physical development (CPPL)
- Aesthetic and cultural development (SAP)

P.L.A.Y. Time!TM fosters collaboration

Engaging content motivates pupils to build General Awareness igniting their natural curiosity and creativity. P.L.A.Y. Time!TM empowers students to confidently communicate in real-life situations, equipping them with essential skills.

General Awareness–Thematic

General Awareness–World around me

P.L.A.Y. Time!™ develops pupil's creativity

Creative expression plays a key role in a pupil's emotional and cognitive development, and in P.L.A.Y. Time!™ there are plenty of opportunities for pupils to put into practice their own creativity.

Projects and creative activities such as arts and crafts, problem solving and creative thinking, help pupils to develop their language skills, be innovative and be open to learning new things.

Art and Play

P.L.A.Y. Time!™ offers engaging digital learning resources

- P.L.A.Y. Time!™ App available on Google and iOS Play Stores
- Over 100 interactivities
- Reward points for children
- Tracing and colouring fun with letters and numbers
- Concept flashcards
- Animated rhymes and stories
- Karaoke for children to sing-along
- Jukebox

Hi! Hello!

• Nursery • Junior KG • Senior KG

Pre-school is an important stage in a child's life as they begin to observe and explore the world around them. Recent research has shown clear evidence that the brain develops to its maximum potential during early years. It is therefore important to create a stimulating and enriching physical and psychosocial environment to help the child's brain develop to its full potential. This stage is also important as a foundation for the inculcation of social values and personal habits, that last a lifetime.

Based on this understanding, **Hi! Hello!** aims at providing ample opportunities to facilitate the holistic development of children in all domains.

Objectives of Hi! Hello!

- To enhance the all-round development of children through developmentally appropriate activities
- To develop cognitive skills for a smooth transition from Pre-school to primary school
- To make children effective communicators and involved learners
- To continuously assess and evaluate children
- To respect the individual differences of children

Early Birds

• Nursery • Junior KG • Senior KG

Early Birds provides comprehensive coverage of reading, writing and numeracy concepts fundamental to early childhood learning. It is graded at three levels– Nursery, Junior KG and Senior KG.

Skill based series to develop following skills and concepts:

- **Literacy Skills**
 - » Reading Skills: develop pre-reading skills, such as matching, prediction, language skills, phonological, and phonemic awareness
 - » Writing Skills: help develop more advanced handwriting skills. Pencil grip, prompts and chanting components in the books help in enhancing writing skills
- **Numeracy Skills:** encourages children to be active participants in the learning and lay foundations on which computational, organisational classification and interpretation skills through pictorial representation can be built
- Activities that meet the requirements and follow the sequence of curriculum
- A 'Talking Teacher': character who supports learning and encourages vocabulary building
- **Learning Outcome** shown at the foot of each page indicates the skills that are the focus of the activity on that page
- **Checklist** - facilitates the monitoring of each child's progress
- Parents can use the outcomes of checklist to keep themselves informed of their child's achievement
- **20 Extension Activities** - for additional practice
- Useful notes with skills-specific information, at the beginning of each book

Crimson (Semester Series)

Classes: 1 – 5

Crimson is an integrated course in English, Mathematics and Environmental Studies and General Knowledge for classes 1-5. The revised and enhanced series conforms to the visions of the **National Education Policy 2020** and follows the experiential and multi-disciplinary approach to learning.

The series covers two semesters in each academic year and is designed to equip learners with the necessary 21st century skills such as *collaboration, communication, critical thinking, creativity and digital literacy*. It also highlights the importance of embedding *art-integrated education* in curricular materials for strengthening the linkages between education and culture.

- **School Preparedness Module:** A section in class 1, semester 1, to help learners recapitulate the concepts learnt in pre-primary classes
- **COVID-19 Poster:** Colourful and informative poster about the prevention and spread of COVID-19 disease
- **Cyber Safety Pages:** Pages designed in the form of comic strips to increase the awareness about digital citizenship
- **Cross-curricular Projects/Project-based Learning:** to help learners adapt their thinking skills to different learning concepts
- **Learning Outcomes:** A list of measurable skills and knowledge
- **Get Ready:** Engaging tasks to introduce the concepts
- **Quick Check:** In-text questions for self-assessment
- **Exercises:** A variety of engaging questions
- **Think and Answer:** Questions of higher order thinking skills (HOTS)
- **Reflect:** Questions on values and life skills
- **Do-it-yourself Projects:** pair and whole-class activities to facilitate peer and experiential learning
- **360 degree Holistic Progress Cards:** Continuous and comprehensive assessment cards to improve holistic development
- **Worksheets/Model Test Paper:** A variety of questions for assessment
- **Teacher's Manual:** A pool of teaching resources such as hybrid lesson plans, answer keys and additional worksheets
- **Digital Resources:** An assortment of digital resources for the new-age teachers and learners

Spring (Semester and Term Series)

Classes: 1 - 5

As envisaged by the National Education Policy 2020, **Spring**, a learner-centred series for classes 1-5, follows the experiential and multidisciplinary approach to learning. **Spring** covers three terms in each academic year and brings together learning materials for English, Mathematics, Environmental Studies, Science, Social Studies and General Knowledge.

- Graded and matched to the number of class hours planned by schools
- **Know More!** to enhance learning beyond the classroom
- **Quick check** (in-text questions) for self-assessment
- **Speak on** discussion-based questions to develop communication skills
- **Let Us Recall** recapitulation points in the form of mind maps and flowcharts
- **Value cards, Life skills tasks and Art and Craft cards**
- **Projects, Experiments and Activities** to facilitate experiential learning
- **Virtual tours** for extended learning
- **Assessments** in the form of well-graded Exercises, HOTS and Worksheets
- **Cross-curricular activities** to link different learning concepts
- **Art-integrated learning** tasks focusing on music, art and craft
- **21st century skills** lesson components tagged with the core and sub-skills
- Current and updated information in the **General Knowledge worksheets**
- **360 degree holistic progress cards** comprehensive checklist
- **Teachers' manual** includes lesson plans, additional worksheets, answers to questions in the coursebook

Peaches (Term Series)

Classes: 1 – 5

Peaches is a five-level series for classes 1 to 5, covering three terms at each level. The series adheres to the guidelines of the National Education Policy (NEP) 2020 and is completely aligned with the Curricular Goals, Competencies and Learning Outcomes outlined in the National Curriculum Framework (NCF) for the Foundational Stage 2022 for classes 1 and 2 and Preparatory Stage 2023 for classes 3-5.

Peaches is a learner–centric series and follows an inter-disciplinary approach with a 21st century skills focus. Focusing on the learners’ natural cognitive, emotional and physical development, Peaches brings together learning materials on English, Mathematics, Environmental Studies and General Knowledge for classes 1 and 2, and English, Mathematics, Science, Social Studies and General Knowledge for Classes 3-5.

- Lessons incorporate 21st century skills, HOTS, and activities based on art-integrated learning and life skills.
- Cross-curricular projects provided for holistic learning at the end of each term.
- Warm-up activities provided at the beginning of each lesson to set the stage for new learning.
- Worksheet/Revise for further revision of concepts learnt.
- The 360 degree Holistic Progress Cards to evaluate the achievement of learning outcomes.

Indigo (Term Series) Classes: 1 – 5

This well-graded integrated course has been developed to inculcate 21st century skills. Focusing on learners’ natural cognitive, emotional and physical development, Indigo brings together learning materials on English, Mathematics, Environmental Studies, Science, Social Studies and General Knowledge for Classes 1-5. Each subject enables the learners to attain learning outcomes as outlined in NCERT’s Learning Indicators and Learning Outcomes at the elementary stage.

- **Happiness Journal:** Self-directed activities to develop self-awareness

English

- **Let’s Read:** Profusely illustrated prose and poem pieces
- **Quick Check:** In-text questions
- **Comprehension Questions:** Objective and subjective-type questions, reference to context, knowledge-based questions
- **Think and Answer:** Higher Order Thinking Skills questions (HOTS)
- **Reflect:** Questions on values and life skills
- **Language Skills:** Grammar, vocabulary/spellings, punctuation/dictionary skills, listening and speaking skills, writing skills
- **Grammar Worksheets:** Skill sheets for additional language practice
- **Pronunciation Drill:** Easy-to-do tasks on phonics
- **Read and Enjoy!:** Stories for rapid reading

Mathematics

- **Let’s Learn:** Easy-to-understand mathematical concepts
- **Think and Solve:** Higher Order Thinking Skills (HOTS) questions and National Maths Olympiad-type questions
- **Do it Right:** Correcting common mistakes
- **Exercises:** Questions including word problems
- **Maths Lab Activity:** Concept-based activities
- **Reflect:** Questions on values and life skills
- **Mental Maths:** Practice questions to do calculations quickly

Environmental Studies

- **Let’s Read:** Profusely illustrated stories, poems and real-life narratives
- **Recall:** Summary points for a quick recap
- **Exercises:** A variety of engaging questions
- **Explore and Discover:** Tasks that encourage curiosity
- **Fun and Learn:** Activities to encourage creativity
- **At Home:** Fun-filled tasks for extended learning

Explore (Semester and Term Series)

Classes: LKG and UKG

Explore is a skill enhancement series based on the guidelines of the Early Childhood Education programme envisaged by different school boards. The series includes skill sheets on literacy, numeracy, general awareness and life skills.

Based on latest blended learning approach

- Age- appropriate activities to develop reading and writing readiness
- Rhymes, stories and mazes
- ‘My Earth’ badges
- Gross motor activities to promote fitness and good health
- Value tags in each semester to inculcate good habits

Explore Classes: 1 - 5

New Explore® Series 1 to 5 follows the curricular requirements set by the NCF 2005 guidelines for core subjects such as English, Mathematics, EVS/Science, Social Studies and General Knowledge for each semester.

- A picture-story lesson in English at levels 3 to 5
- All concepts in Mathematics are introduced through picture stories to remove maths phobia
- Pictorial representation of examples in English grammar and Mathematics for easy comprehension
- Fun Time, Let’s Do, Let’s Explore and Let’s Integrate provide opportunities to explore the topics further
- Learning summaries give an overview of the concepts learnt in each semester
- Workbooks are aligned with the course books. They also include activities on Art and Craft and Values and Life Skills/Living Together
- Teacher’s Manuals include lesson plans, worksheets and answer keys

Rhythms (Term Series) Classes: Nursery, LKG and UKG

A term series based on the VARK (Visual, Aural, Read/Write and Kinaesthetic) model of teaching. The series utilises active learning techniques to help the students develop holistically.

- A blend of learning areas such as Language Development, Preparatory Mathematics, Environmental Learning, Art and Craft and Life Skills Education
- Comprehensive evaluation sheets
- Well-structured activities including stories, rhymes and songs
- Activities to develop fine and gross motor skills

Rhythms (Term Series) Classes: 1 – 5

Aligned as per the National Curriculum Framework for Foundational Stage 2022 and the National Curriculum Framework for School Education: Preparatory Stage 2023, Rhythms covers three terms in each academic year and brings together learning materials for English, Mathematics, Environmental Studies, Science, Social Studies and General Knowledge.

- Graded and matched to the number of class hours planned by schools
- Language, mathematical and scientific concepts linked to real-life examples
- Posters on personal safety and UN's Sustainable Development Goals
- Cyber safety pages in a comic format
- School preparation module/Getting ready to bridge learning gap
- Learning outcomes: to set the agenda for an outcome based learning
- Quick check for self-assessment
- Speak on discussion-based questions
- Concept recall in the form of graphic organisers
- My India...My Pride snippets to make learners aware of India's rich heritage
- Try this and Club activities: pair- and whole-class activities
- Virtual tours for extended learning
- Competency-based assessments in the form of well-graded Exercises
- Cross-curricular projects
- Art-integrated learning tasks focusing on music, art and craft
- 21st century skills lesson components tagged with the core skills
- Current and updated information in the General Knowledge worksheets
- 360 degree holistic progress cards comprehensive checklist after every module
- Skill-based workbook for competency-based assessment on SAFAL
- Teacher's manual includes lesson plans, additional worksheets, answers to questions in the coursebook and workbook
- A pool of digital resources for blended learning

New English Ferry

(Reader, Workbook and Supplementary Reader)

Classes: Nursery – 8

New English Ferry, now in its fourth edition, is aligned with NCF 2022 for the Foundational Years as well as the NCF 2023 for the Preparatory and Middle years. The series comprises Readers for Nursery up to Class 8, Workbooks for Classes 1 – 8, and Supplementary Readers for classes 3–8.

- The three pre-primary levels added to complete the series
- Activities for **play-based** and **collaborative learning** in the foundational years
- **Indian texts** to make learners aware of India’s rich cultural diversity and literary heritage
- **Activities for experiential learning** with a **cross-curricular approach** to promote ‘learning through reflection on doing’
- Content enriched with **art-integrated learning** for strengthening the linkages between education and culture
- **Social-emotional learning** for holistic education through developing the ‘social and emotional capacities’ of learners
- **My India My Pride** pages to make learners aware of India’s rich heritage
- **At Play** pages with simple, language-related games for learners to play in groups
- **Be Creative** pages with activities involving physical movement and creativity
- **Graded grammar**, introduced pictorially through dialogues among characters from the stories
- **360 degree holistic progress cards** to encourage regular, formative and competency-based assessments
- Focus on **UN Sustainable Development Goals** to align learners with India’s commitment to ‘ensure inclusive and equitable quality education . . . for all’ by 2030
- **Two model test papers** for term/semester-end assessment

English Treasure

(Reader, Workbook and Supplementary Reader)

Classes: 1 – 8

New English Treasure is an integrated English course based on the communicative approach. The revised edition of the series conforms to the recommended pedagogical approach and practices enshrined in the National Education Policy (2020). The series aims at enabling the experience of holistic teaching and learning for both the teacher and the learner.

- **Indian authors and selections** to make learners aware of India's rich cultural and literary heritage
- A **school preparation module**, consisting of play-based and collaborative activities to ensure that all learners are equally school-ready
- Activities for **experiential learning** with a **cross-curricular approach** to inculcate a hands-on and reflective approach to learning
- Focus on **21st Century Skills** to prepare learners to be global citizens and problem-solvers of the coming decades
- Content enriched with **art-integrated learning** to underscore the link between education and culture
- **Social-emotional learning** for a holistic development of the learner through enabling their 'social and emotional capacities'
- **Graded grammar**, which is context embedded and uses appropriate visual organisers for ease of understanding, remembering and recalling
- Context-based and theme-linked **listening and speaking** activities to develop aural and oral communication skills
- **360 degree holistic progress cards** to encourage regular, formative and competency-based assessments
- **Workbooks** that are thematically and conceptually mapped to Readers
- **Supplementary Readers** with a rich array of stories and poems, especially of Indian origin, to develop love of reading in learners

English for the New World

(Reader, Workbook and Supplementary Reader)

Classes: 1 – 8

English for the New World is based on the communicative approach to teaching/learning of English and has been designed to engage students with the language.

The Workbooks are aligned with the Readers to ensure mapped learning of concepts. Literature Readers, for classes 3 to 8, develop reading skills by exposing students to varied literary texts. It also actively promotes cross-curricular learning while integrating blended learning.

- Includes structured lessons with clearly defined **learning objectives**
- Allows self-assessment through end of lesson **checklists**
- Offers a wide range of text types as reading passages
- Sensitises learners to the real world and integrates **life skills and values cohesively**
- Gives ample scope for **listening and speaking practice**
- Covers grammar concepts with clear explanations and examples
- Develops an active vocabulary base in a graded manner
- Provides extensive **pronunciation drills**
- Includes comprehensive Teacher’s Manuals and additional Worksheets.

New Horizons Today (Reader and Workbook)

Classes: 0A – 8

The focus of the series is on sharpening four basic language skills through activities interwoven in exciting and familiar contexts for today's learners.

- Inclusion of extracts from the timeless classics of English literature
- **Rich variety of exercises** with scope for classroom interaction and communication
- **Tasks** which draw upon the student's language competence to skim, scan, infer and analyse the text for global and inferential comprehension
- **Well-defined activities** to internalise graded, common vocabulary
- **Coverage of all important concepts** and revision through well-explained definitions and examples
- Inclusion of **well-defined Listening and Speaking activities** for an integrated approach to learning of the language
- **Workbooks** with interesting activities for reinforcement and recapitulation of concepts covered in the Readers.

Kites (Reader and Workbook)

Classes: 1 – 8

Kites is an ELT course developed by language experts. The series encourages the idea of drawing strengths from bringing the mother tongue into the classroom where necessary, to enrich the experience of a second language learner.

- Focus on **developing oral skills** at the initial stages, followed by literacy skills
- **Rich variety of reading texts** to sustain learners' interest in a new language
- **Comprehension** covers factual, inferential, analytical, evaluative, and extrapolative questions
- **A Ready Reference for Essential Grammar** at the end of the book to recapitulate the concepts learnt
- **Fun activities** to engage the students' interest
- **Workbooks** directly linked with the Readers
- **Supplementary Readers** offer a treasury of national and international literature

Grammar Way

Classes: 1 – 8

A comprehensive grammar course for grades 1 – 8, based on the eclectic approach to language acquisition. Learners acquire grammar through both inductive and deductive methods. The series also includes vocabulary, reading comprehension and composition to provide learners with a holistic language learning experience while strengthening their knowledge of grammar.

- Improved gradation with added topics and an in-depth learning of concepts
- Enriched composition with additional writing tasks
- Grammar activities to promote collaborative learning in an enjoyable way
- Grammar games for fun application of concepts and reinforcement
- Review sheets for continuous and focussed monitoring of student learning
- Model test papers for end-of-the-year summative assessment
- Grammar hut for a quick recap of key concepts
- Teacher’s manual with answer key and sample answer for open-ended questions
- Digital resources for additional learning support and interactive practice materials

Great Fun with Grammar

Classes: 1 – 8

A contemporary grammar series for grades 1 – 8, based on interactive and collaborative approach to learning. The revised edition has enhanced explanations of key grammar concepts and ensures that the process of teaching and learning grammar is enjoyable to teachers and students alike.

- **Methodical:** Learning proceeds from the familiar and known to the unfamiliar and new
- **Detailed:** definitions of parts of speech given along with detailed explanation of concepts
- **You Know:** for periodic recapitulation and reinforcement to create cyclical learning
- **Fun Tasks:** for application of grammar by means of enjoyable collaborative activities
- **My Fun Corner:** links grammar to learners’ environment through a variety of task types
- **Project:** specially designed tasks to encourage planned and collaborative learning
- **Let’s Talk:** a unique, end-of-lesson section to provide a communicative application of grammar concepts in contextual situations
- **Let’s Learn:** explains grammar concepts with examples for clarity and deeper understanding
- Digital resources for additional learning support and interactive practice materials

My Book of Grammar and Composition

Classes: 1 – 8

My Book of Grammar and Composition, a simple and easy-to-understand grammar course, is suitable for students. The series can be used as a stand-alone book or as a complementary book with any English Course-book.

- Comprehensively graded grammar, vocabulary and writing tasks
- Wide variety of grammar and vocabulary exercises
- Attractive layout with full colour illustrations
- Answer keys available for teachers
- Composition passages

- **Learning Outcomes:** significant learning outcomes that learners will achieve on completion of the lesson
- **Mental Maths:** allows learners to carry out quick calculations
- **21st Century Skills:** helps in holistic development of learners
- **HOTS/Target Olympiad:** encourages learners to think out-of-the box
- **Nature Walk:** encourages learners to experience the natural world and learn new concepts
- **Oral Maths Talk:** warm-up activities at the beginning of chapter to develop oral calculation and reasoning skills
- **Puzzles and Games:** reinforces mathematical skills
- **Activity/Cross-curricular Connect and Project-based Learning:** collaborative activities for experiential learning
- **Arts- and Sports-integrated Learning:** allows learners to understand the application of mathematics in different forms of arts and sports
- **Maths in Real Life/Case Study:** helps learners apply mathematical concepts in real-life situations and develop scientific temper
- **Story Time:** mathematical stories for language and literacy development
- **Values and Ethics:** helps in holistic development of learners
- **Revision Station/Exercises/ Worksheets/ Practice Sheets:** wide range of well-thought-out ‘assessments for learning’
- **360 degree Holistic Progress Cards:** encourages regular, formative and competency-based assessments

Abstract
Symbolic

Based on the highly effective Singapore approach of teaching mathematics, **CPA Maths** is a series of mathematics textbooks for classes 1-8. Aligned with the **National Education Policy 2020** and the **Mandate Document (2022) to the National Curriculum Framework**, the series focuses on experiential learning for in-depth understanding of concepts rather than rote learning.

- **School Preparedness Modules** in classes 1, 3 and 6 to seamlessly transit to the next class
- **See and Learn** helps to understand and progress through concepts using visual inputs
- **Competency-based Assessments** such as Do and Learn (Exercises)/ Try it/Maths @ Work/Let's think Along encourage mastery and application of concepts in different contexts
- **Hands-on Activity/Pair and Share** promotes in-depth understanding through manipulatives, and enhances communication and collaboration skills
- **Let's Have Fun** reinforces the grasp of mathematical concepts through games and activities
- **Cross-curricular Connect** activities aim to explore interconnected topics
- **Art-integrated Learning** activities to imbibe the Indian art and culture
- **Financial Literacy** to understand the importance of economy in everyday life
- **Technology Literacy** encourages the use of digital tools to access, manage, evaluate and create information for functioning in the real life
- **Case Study** promotes vocal for local and helps students apply mathematical concepts in real-life-situations
- **India@75** celebrates and commemorates 75 years of independence and our progress in sciences, technology and society
- **360-Degree Holistic Progress Cards** to assess learning
- **Mastery Worksheets** of levels L1 (Basic), L2 (Standard), and L3 (Challenge) in classes 1-5 for additional practice

CPA: Concrete, Pictorial and Abstract

In the concrete step, students engage in hands-on learning experiences using **concrete** objects such as chips, dice, or paper clips, This is followed by drawing **pictorial** representations of mathematical problems and then in an **abstract** way using numbers and symbols.

Extra Mile

Classes: 1 – 8

Extra Mile can be an accompaniment to any maths series, and can be used as a stand-alone practice workbook based on concepts that are grade appropriate and have learning outcomes.

ISBN	Level	Price

Footprints **Classes: 1 – 8**

Footprints ...Our Past, Planet, and Society is an integrated social science series aligned with NCF 2022 for the Foundational Years as well as the NCF 2023 for the Preparatory and Middle years. The series follows an experiential and cross-curricular approach to learning. The learning materials are learner-centred, discovery-oriented, discussion and inquiry-based to help learners develop the essential 21st century skills.

- **Big Idea** captures the learning outcomes
- **Zoom In (1-5)/ Did You Know (6-8)** gives interesting snippets of information
- **Circle Time (1-5)** are fun activities that promote learning in a nurturing, stress-free environment
- **Story Time (1-5)** are illustrated stories for learning about social relationships and experiencing emotions
- **Toy-based Learning (1-5)** uses toys, both DIY and made in India, as tools of experiential learning
- **Rooted in Heritage (1-8)** connects the learner to the rich heritage of our country
- **Social and Emotional Learning (1-5)** activities help in developing self-awareness and interpersonal skills
- **Citizenship in Action (2-8)** to develop skills to ably participate in the democratic es of the country
- **Connecting literature to history/geography/social and political life (6-8)**
- **Vocational Learning (6-8)** for bagless days
- **Chapter Checklist and Visual Summary** provide key points of a lesson for self-assessment and revision
- **Art-integrated learning, Project-based learning and cross-curricular activities (2-8)**
- **Guided Learning (6-8)** to help learners organise their learning efficiently
- **Engage and Explore** help engage students with the course content and facilitate experiential learning
- **History Maker (History)/News Maker (Geography and Social and Political Life–6-8)** showcase important personalities
- **Timelines** in history lessons place events and provide a time frame for in-depth understanding
- **My SDGs** are engaging comic stories on the United Nation’s Sustainable Development Goals to transform our world
- **Connect to History/Geo-Connect/Connect to the World Around (6-8)**
- **Analysing Sources of History/Analysing Contemporary Sources (6-8)** encourages experiential learning
- **Dual Focus Maps (transparencies-2-8)** allow learners to correlate geography themes meaningfully
- **What was Happening Elsewhere (6-8)** helps to develop the skills of comparative analysis
- **Be a Historian/Be a Geographer/An Extra Mile (6-8)** gives students an opportunity to think and work like social scientists and construct their own knowledge
- **Model Test Papers (2-8)** and worksheets (6-8) for assessment
- **360° Holistic Progress Cards** facilitate continuous and comprehensive assessments

Green Leaf **Classes: 1 – 5**

Green Leaf is a series of five textbooks on Environmental Studies based on NCERT learning outcomes. The series is designed and developed to create awareness among learners about their immediate and wider surroundings through real-life experiences and to nurture natural curiosity and creativity, and develop sensitivity for the natural and human resources in the environment.

- **Before We Begin**—activities and probing questions to generate curiosity about the new topic
- **Lessons**—stories, poems and real-life narratives to teach key concepts
- **Word Smart**—meanings of new words to build vocabulary
- **Did You Know?**—interesting snippets related to the lesson to impart additional learning
- **Remember**—a recapitulation of the key concepts
- **Exercises**—a variety of questions to build comprehension skills, logical reasoning and creativity
- **Explore and Discover/Fun and Learn/At Home**—tasks for extended learning
- **Teacher’s Handbook**—a useful teaching resource that includes lesson plans, answer keys and additional worksheets

Nayee Baal Sulabh Mala

Classes: 1 – 8

Nayee Baal Sulabh Mala, is a series of Hindi-English Two-way reader for second and third language users. The series has been revised keeping in mind the latest pedagogical techniques.

- **School Preparation Module** for grades 1, 3 and 6 in tune with NEP 2020 guidelines
- **Experiential learning** activities and tasks to foster 21st century skills
- Hindi learning made easy by following **text-cum-workbook** format
- **Bilingual series** to help students learn Hindi easily with **English explanations and rubrics**
- Devanagari script introduced through **art-integrated learning**
- Emphasis on developing **functional Hindi vocabulary**, and meanings of words in English
- Ample practice of listening, speaking, reading and writing to help acquire Hindi language skills
- **Simple explanation of grammar concepts** in books 4 - 8
- Functional activities to help them in every day conversations
- **360 degree assessment**
- **Cross-curricular tasks and activities based on SEL**
- **Selections foster diversity, inclusivity**

E-Magic

–Windows 7 and MS Office 2007

Classes: 1 – 8

E-Magic is based on Windows 7 and MS Office 2007 and covers all the necessary software. Each of these books incorporates the features of a textbook, a workbook as well as a manual to ensure maximum benefit to the student.

- The series includes C++, Java, Tux Paint and additional topics in HTML and Visual Basic
- Windows 8 and addendum on Office 2010 from Class 3 onwards
- Includes sample questions for National Cyber Olympiad from Class 2 onwards
- Provides an exhaustive set of questions at the end of the book
- Project Work at the end of each book that has been designed to sharpen the student's skills in available software
- Free Digital Support for teachers in classes 3 to 8

Mind Xpress

Classes: 1 – 8

Mind Xpress is a General Knowledge series to provide important knowledge and skills in a logical developmental sequence for in-depth understanding. Topics based on life skills and critical thinking empower students in developing skills such as analysing situations, making reasoned judgement and solving problems as they emerge. This lays a sound foundation for taking competitive exams in later years.

- Appropriate content that provides for all areas of a child’s development such as physical, emotional, social, linguistic and cognitive
- Has an **attractive layout**, double-page spreads with child-friendly illustrations and photographs that appeal to children and adults alike
- Self-directed and hands-on **activities, quizzes, puzzles, riddles**, etc., that require young learners to be creative and innovative, and gives them the confidence and skills to use critical and creative thinking purposefully
- **Board Games** help improve analytical and decision-making skills
- **A Step Further** are inquiry-based activities to enhance students’ ability to think sequentially, creatively and critically
- **Sounds Interesting** give interesting and useful snippets of information
- **Help Box** provides cues to students to complete the activities successfully
- **My Earth Songs** by Grammy® Award Winning Composer and Conservationist Ricky Kej to sensitise students on sustainability and conservation

GK Smart

Classes: 1 – 8

GK Smart is a scientifically graded series, catering to students across all boards. The series is based on Howard Gardner's Theory of Multiple Intelligences (MI), which helps teachers to find natural intelligences of their students.

- Each **Smart Sheet** has been designed to cater to one or more of the Multiple Intelligences
- **Thematic arrangement of topics** covering varied content, such as Living World, Logic and Reasoning, Food and Beverages, Literature and Language, Sports and Entertainment, Culture and Heritage, Science and Technology, Life Skills and Values, and Art and Craft
- **Personality Focus** for students to draw inspiration from the lives of great personalities
- **Did You Know** provides interesting facts and trivia on the target concept
- **Quoteworthy**, a collection of thought-provoking quotes by eminent personalities to inspire students
- Specially designed test papers called **Smart SEAL (Skill-based Evaluation of Aptitude and Learning)** for the students. The grading sheet for teachers provides the method of assessment and helps them to identify the students' natural intelligences (skills and aptitude) and potential areas for improvement
- **'My Earth Songs'** bookmarks based on UN's Sustainable Development Goals, composed by Ricky Kej, Grammy Award Winning Composer, to sensitise students on conservation
- **eBytes**, an App that provides additional general knowledge content capsules with relevant images and videos

Touchstone

Classes: 1 – 8

Touchstone, follows a comprehensive and pragmatic approach to enable our young adults to rise to higher levels of endeavour and achievement.

The core values dealt in the series revolve around health and hygiene; responsibility for self-development; responsibility towards one's work/duty; harmony and common brotherhood, social responsibility; love, care and compassion; protection of environment; critical and creative thinking; scientific temper, and appreciation for beauty and aesthetics.

- Each lesson begins with a thought-provoking quote by great personalities
- 'Points to ponder' lists a set of questions for reflection
- 'Read and Reflect' include interesting stories, anecdotes and poems based on the value
- 'Your workspace', 'Your skill space' at the end of each lesson to assess the internalisation of values

Garden of Life

Classes: 1 – 10

Education is complete and comprehensive only when academics with its knowledge embraces value education with its wisdom. Knowledge as 'information' must be guided by wisdom as 'transformation' to empower children to become architects of a beautiful world.

Garden of Life, a series on Value Education is designed and developed with this larger and all-embracing vision. Through this series, children, parents and teachers unite to create a happy, healthy and harmonious educational ambience. Thus empowered, schools and families create a firm foundation upon which is built a superstructure of a more prosperous, progressive and peaceful society, nation and world.

- **Warm-up** - activities and tasks for reorientation
- **Think** - Thought-provoking and introspective section
- **New stories** in the present context, to teach values as suggested by the NCERT
- Easy-to-understand language
- Activities and games related to the values taught in the lesson
- **Homework and Exercises** for self-evaluation on the values learned
- **My Value Wheel** - to recapitulate values learnt in the lesson
- In-built teacher's resource
- Interesting use of **cartoons** for values in classes 1 to 5
- **My Earth Songs** by Grammy Award Winning Composer, Ricky Kej
